SERVICE BULLETIN

AFTERSALES SERVICE OFFICE MITSUBISHI MOTORS AUSTRALIA LTD.

PURPOSE: Advisory	ISSUE: 00 – 2024 - 013	DATE: 28 – 11 - 2024	
SUBJECT: WSM migration to TESS for GETAC units – Rev B		MODEL All	MY N/A
GROUPS: 00 - General			

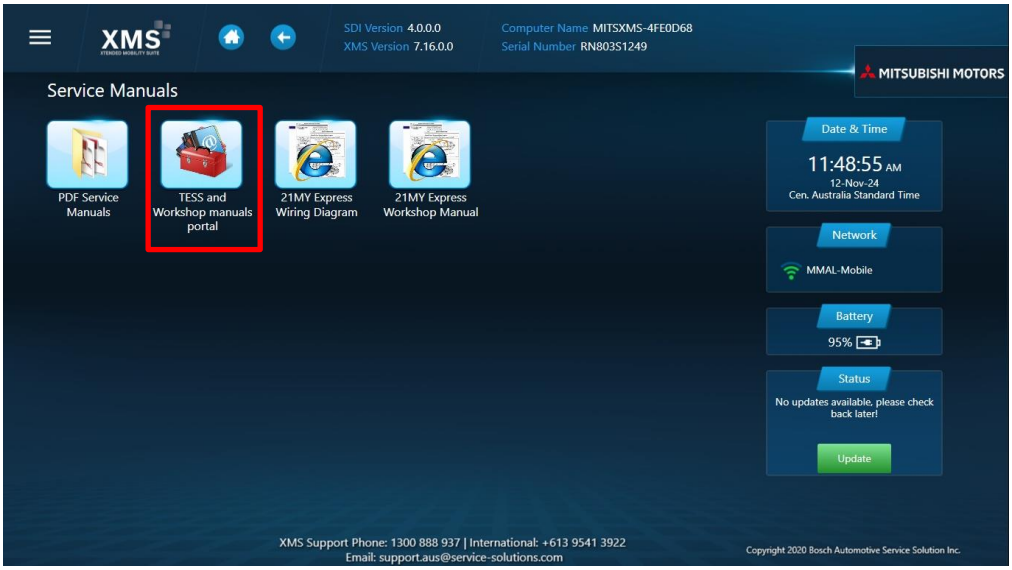

1. Description:

MMAL wish to advise that all WSM on the Getac will now be accessed via the provided TESS link in the "Service Manuals" section (except PDF and SN Express WSM – refer image below).

2. Details:

This update will be delivered via the XMS Platform on your Getac S410/F110 laptop/tablet automatically from 15/11/2024, which will remove all versions of the WSM in the standalone WSM viewer and SMV for MUTIII.

This change was necessary due to compatibility issues with Windows 10 and Microsoft Edge no longer allowing Internet Explorer use, which in turn prevents displaying the affected WSM.

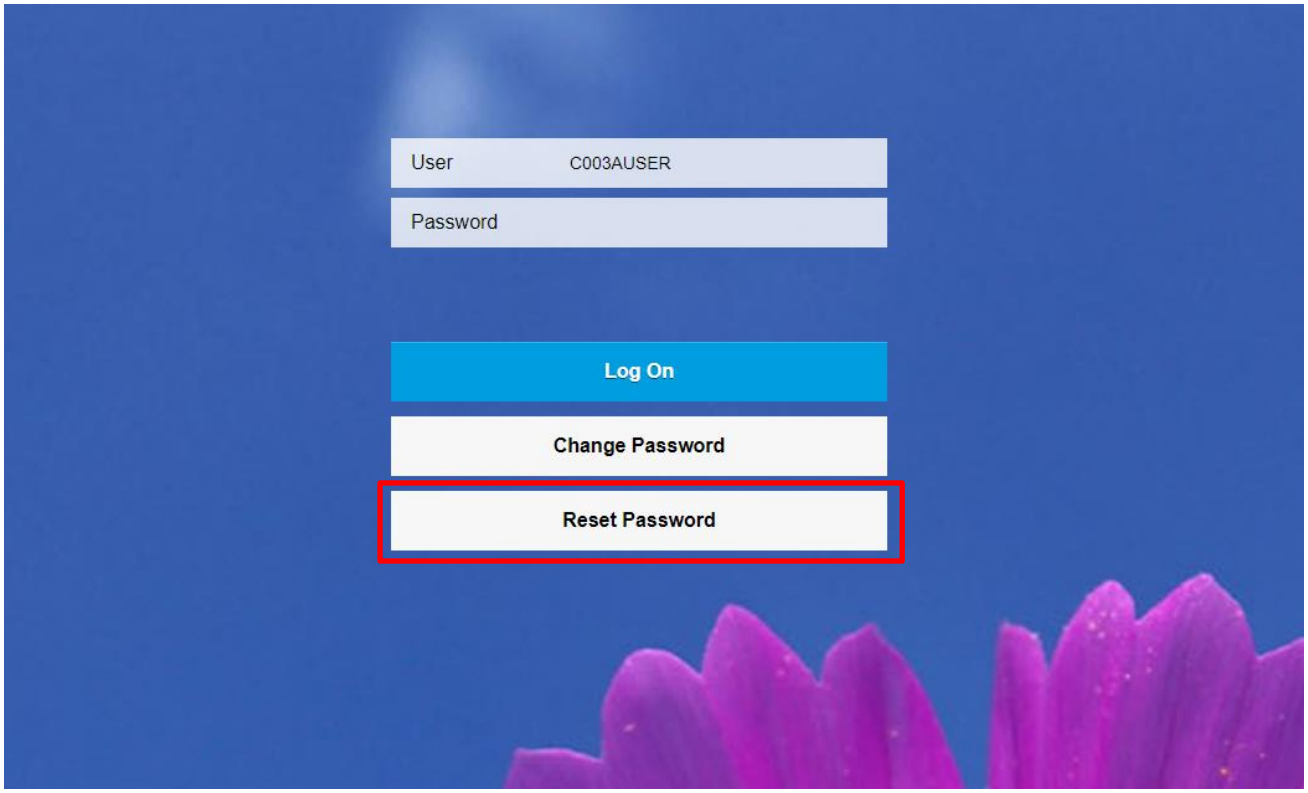

To log in to TESS, please use your normal MMAL warranty portal login credentials. To report any error in the TESS WSM's, please submit a ticket via the MiDealer Assist portal.

Note: Details contained in this Service Bulletin and Attachments are current at the time of publication, MMAL however reserves the right to make changes at any time without prior notice or obligation.
Copyright © Mitsubishi Motors Australia Limited. Reproduction in whole or part prohibited without written approval.

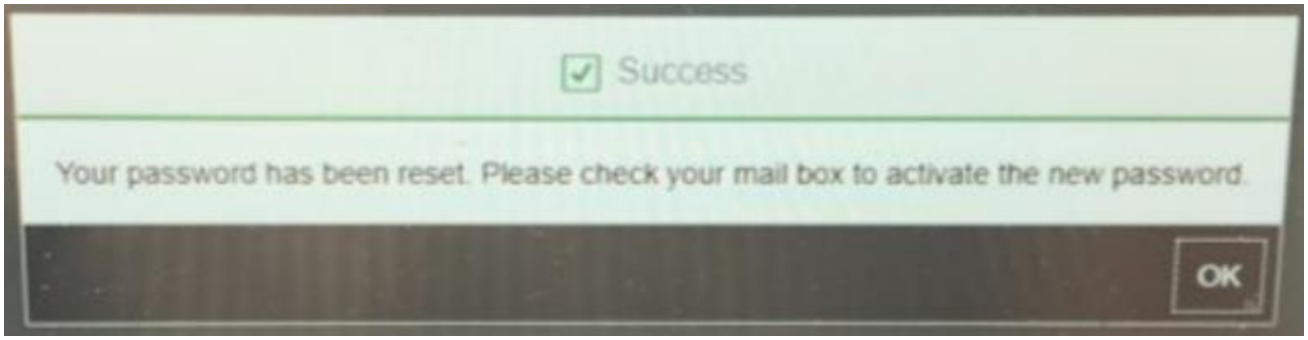

Note: Your Warranty Portal login credentials (password) required to access TESS from this link will be different to your SAP Dealer Portal login credentials (password).
The password for accessing the Warranty Portal directly is not set when your SAP user profile is created. Please use the "Reset Password" option to create your Warranty Portal login password.

Note: If you encounter errors when resetting your password via the "reset password" option, please try connecting your Getac to an alternate internet connection such as a mobile hotspot or standalone wi-fi connection (some network security programs and firewalls may cause errors as shown below).

If password reset is successful, the following message should be displayed –

Please check your nominated email address for an activation email and activate your new password.

Note: Once this process is complete, your SAP Dealer portal password and Warranty password may be different. Please ensure **both** passwords are recorded somewhere safe for future reference.

If you encounter any issues with the above process, please submit a case via the Mi-Dealer Assist portal and MMAL will assist with troubleshooting the process.

For any technical enquiries regarding the Getac S410/F110 or this update, please contact Bosch on 1300 783 031.
