General Letter GL-07-026

To: **Dealer Principals and Service Managers**

Subject: **5 – 10 Warranty Validation Process**

MMAL will implement a monthly 5-10 Warranty Validation reminder mail out process within the next two weeks to contact all customers who own a vehicle that is nearing the end of the Initial Warranty period.

The mailings will be completed using name and address details as recorded in MMAL's customer database.

The communication piece will be in the form of a letter and information folder that will:

- Remind customers that they need to present their vehicle (with book) to an authorised Dealer.
- Remind customers of the warranty terms and conditions.
- Introduce customers to the Diamond Advantage.
- Reinforce the benefits of Dealer service.

When a customer presents a vehicle in response to the MMAL communication or for scheduled service or warranty service during the last six months of the Initial Warranty period, Dealers are required to:

1. Raise a "No Charge" customer invoice using a job code (preferred) or description that clearly identifies the operation as a 5-10 warranty validation "service".

   For MVP operational Dealers, this will enable the service to be registered on the MMAL Service History database via the MVP service event data feed.

   MVP operational Dealers are requested to provide details of their job code(s) and/or description(s) via email to pgibson@mmal.com.au

   Dealers who are not MVP operational are required to manually enter details via the "RECORD A SCHEDULED SERVICE" located in Service Facilities on Deacon:

Interval:	510
Interval Description:	5/10 Year Warranty Validation

2. Endorse the "Extended Warranty Registration Validation" coupon in the Service and Warranty Book by affixing a validation sticker (to be provided by MMAL*) and endorsing the sticker with a Dealer stamp.

   Customers should NOT be charged for having this validation completed.

   * An initial quantity of stickers will be despatched to each Dealer in the near future.

   Additional quantities can be ordered via LAMP on a no charge basis.

Please note: The information contained in this document is CONFIDENTIAL and intended for Mitsubishi Dealer use only. It must not be provided to third parties.

3. Review the service history and highlight to the customer any issues or concerns that may affect the warranty coverage on specific components if not addressed (eg coolant change, brake fluid change etc.).

   Defects occurring at a future date that are attributable to improper servicing will be handled on a case by case basis in the same way as they would be handled during the Initial Warranty.

   Whilst it is expected that the validating Dealer will have flagged any potential issues to the customer, **MMAL will not hold the validating Dealer liable in the event of future defects that occur as a result of improper servicing by a third party.**

We acknowledge that this process will require some administration work on behalf of Dealers however we believe that the benefits available will outweigh any imposition if Dealers leverage the opportunity to:

- Verify/update name and address details.
- Re-capture lapsed customers
- Increase service sales through up-sell

Thank you in anticipation of your assistance and support of this important customer retention initiative.

Yours sincerely,
Mitsubishi Motors Australia Limited

D. R. Budden
National Service Manager
