November 2007

General Letter GL - 07- 032

To: **Dealer Principals (cc Service Managers)**

Subject: **Warranty Payments**

In our continuing efforts to improve efficiencies it has been decided to combine all Dealer payments into a single transaction twice a month. This process will replace the current process of a warranty cheque run the day following a warranty payment run as well as the twice monthly cheque runs for other monies owed to a Dealer. Instead the warranty payment will be combined with other Dealer payments in a single cheque run twice a month on the 3rd and 13th working days of each month.

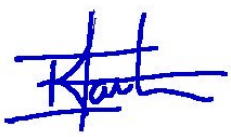

To gain the most out this change the warranty claim approval run (usually referred to as a warranty payment run) will be changed from approximately once each fortnight to two runs per month on the 12th and last working day of each month. This change will take effect from December 2007, and an adjustment to the warranty approval runs for December is required as detailed on the next page. Run and payment dates for 2008 are also included.

Additionally the “Recipient Created Tax Invoice” that is produced by the warranty approval run will no longer be posted in hard copy to Dealers. Instead the “Recipient Created Tax Invoice” will be produced as a pdf file and uploaded onto the Dealer Extranet and can be accessed via the Dealer Invoices menu under Cheque Remittance Documents together with other supporting documents associated with the Finance dept cheque run.

In line with this change Dealers will no longer receive a “Parts Disposition List” instead Dealers are asked to hold all parts for 90 days before destroying. Where parts are required to be returned, MMAL will make direct contact with the Dealership Service dept in this 90 day period and advise the process for parts to be return. As this is an interim process for Parts Return, more details of the revised Parts Return process will be provided in the New Year once the process has been finalised. This does not affect the return of exchange parts such as transmissions and audio equipment etc to Vendors (e.g. Fluidrive, Go Technologies, Clarion), which still follow the previously advised process.

If you have any questions about this change please contact the undersigned.

Yours sincerely,
Mitsubishi Motors Australia Limited

Ian K. Matthews
Manager, Warranty
