General Letter GL-08-008

To: **Service Managers (cc Dealer Principals)**

Subject: **5 – 10 Warranty Validation Process**

We have recently received a number of customer contacts relating to situations where Dealers have not completed the 5-10 Warranty validation process citing non-compliance with service schedules as the reason.

5-10 Warranty validation is not conditional on service history and therefore it is necessary that we re-confirm that the required process is as follows:

When a customer presents a vehicle in response to the warranty extension reminder letter sent by MMAL or for a scheduled service or warranty service during the last six months of the Initial Warranty period, Dealers are required to:

1. If the warranty validation service is the only job required, raise a "No Charge" repair order using a job code (preferred) or description that clearly identifies the operation as a 5-10 warranty validation "service".
   If other work is to be performed, add an operation to the repair order using a job code (preferred) or description that clearly identifies the operation as a 5-10 warranty validation "service".
   For MVP operational Dealers, this will enable the service to be registered on the MMAL Service History database via the MVP service event data feed.
   Dealers are requested to provide details of their job code(s) and/or description(s) via email to pgibson@mmal.com.au
   Dealers who are not MVP operational are required to manually enter details via the "RECORD A SCHEDULED SERVICE" screen located in Service Facilities on Deacon:
   Interval: 510
   Interval Description: 5/10 Year Warranty Validation
2. Endorse the "Extended Warranty Registration Validation" coupon in the Service and Warranty Book by affixing a validation sticker (LAMP order code "extwarrstick") and endorsing the sticker with a Dealer stamp.
   Customers should NOT be charged for having this validation completed.
3. Review the service history and highlight to the customer any issues or concerns that may affect the warranty coverage on specific components if not addressed (e.g. coolant change, brake fluid change etc.).
   Any such items should also be recorded on the repair order and the customer invoice.

NOTE:

Defects occurring at a future date that are attributable to improper servicing will be handled on a case by case basis in the same way as they would be handled during the Initial Warranty.

Whilst it is expected that the validating Dealer will have flagged any potential issues to the customer, *MMAL will not hold the validating Dealer liable in the event of future defects that occur as a result of improper servicing by a third party*.

DIAMOND ADVANTAGE
AUSTRALIA'S BEST NEW CAR WARRANTY AND CUSTOMER CARE
mitsubishi-motors.com.au

The 5-10 Warranty validation process provides an opportunity for Dealers to:

- Verify/update name and address details.
- Re-capture lapsed customers
- Increase service sales through up-sell

We do not expect that the process will result in customer dissatisfaction and/or customer complaints.

Thank you in anticipation of your assistance and support of this important customer retention initiative.

Yours sincerely,
Mitsubishi Motors Australia Limited

D. R. Budden
National Service Manager
