PARTNER 2008-2012

MITSUBISHI MOTORS
love that car

February 2010

General Letter GL-10-004

To: **Dealer Principals, Sales Managers, Service Managers, Stock Controllers**

Subject: **Corrections to the New Service and Warranty Part Number MR936980.**

We regret to advise that we have identified a number of errors in the Service Tables included in the recently issued Service and Warranty Booklet (part number MR936980).

Accordingly the Service and Warranty booklets MR936980 will require addendum stickers to be inserted by the dealer. This will affect vehicles in stock and vehicles coming from POE in January and February 2010.

The Service and Warranty booklet has been revised and installed at POE in February 2010.

The revised book will have part number MR936980-A printed on the bottom of pages 7 through to page 38. These booklets will not need any addendum sticker inserted.

Booklets **WITHOUT** the part number MR936980-A printed on the bottom of pages 7 through to 38 will need to be amended. Refer to pages 3 and 4 of this correspondence for details.

Vehicles not delivered should be corrected immediately, but the book must be checked during the customer hand over process to ensure the correct addendum sticker is fitted for that vehicle type.

Vehicles already delivered to customers should be corrected at the first service opportunity or contact.

An initial quantity of addendums will be provided to Dealers. Additional requirements can be ordered from LAMP (refer to the table on page 2 of this correspondence for part numbers).

Your assistance in this matter is anticipated and appreciated

Yours sincerely,
Mitsubishi Motors Australia Limited

D. R. Budden
National Service Manager

Evolution and Ralliart	**No change to current booklet MR936454**	

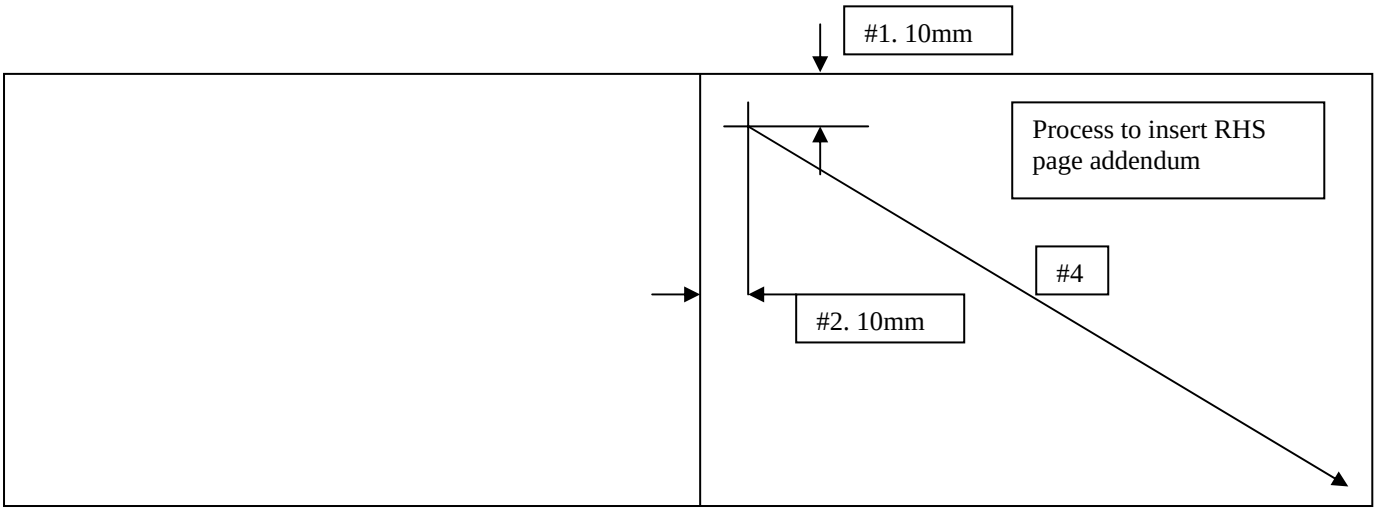

Procedure to Correct Service and Warranty Booklet MR936980

The Addendums will need to be placed over the original page(s) in the booklet.
This is to be done by using the inside corner of the page to be replaced as a reference.
#1. Make a parallel mark 10 mm from the top edge
#2. Make a parallel mark 10 mm from the inside edge.
#3. Check the correct addendum part number being inserted into the Service and Warranty Booklet is correct to the customer vehicle type.
#4. Peel the sticker from backing and carefully locate the top inside corner onto the booklet ensuring it is parallel to the edges and then lay down over current page using a diagonally motion, smooth out to prevent bubbles.

Left hand side pages for the Regular Service Table for all vehicles.

Right hand side pages for the Additional Service Table for All Wheel Drive Petrol only, (page 33).

Example
