Subject: **MMAL – 21260 MY22 MR Triton Mi-Display Launch**

With the launch of MY22 Triton, MMAL has introduced the Mi-DISPLAY to the Australian Market to fill the market position of our MY21 Smartphone Display Audio (SDA1) Unit.

Mi-DISPLAY has been engineered and produced by DIRECTED Electronics Australia Ltd and tested locally by MMAL to ensure our customer's receive a quality infotainment system that uniquely suits the MY22 Triton.

The Mi-Display Features include
- ✓ AM, FM & DAB Local Radio
- ✓ Bluetooth Phone Connectivity & Audio Streaming
- ✓ Dual USB Connectivity
- ✓ USB Media Streaming
- ✓ Android & Apple Smartphone Connectivity
- ✓ Rear View Camera view with Calibrated Gridlines
- ✓ Complementary 3-in-1 USB Cable

This infotainment system will be fitted standard to GLX-R/GLX+/GLS/GSR at our port of entry sites. Prior to delivery, every vehicle installation is quality checked to ensure it meets our quality standards.
**Triton models fitted with Multi-Around-Monitor will be remain equipped with SDA1.*

For this new product introduction, we have created a number of new part numbers that you will find in the Mi-Display Program Manual (refer Appendix A).

The complementary 3-in-1 USB Cable pre-installed in the vehicle will give your teams the opportunity to get customers connected at the dealership.

If you have any questions, please do not hesitate to contact your State Parts and Service Development Manager.
