Subject: MMAL – 22209 Distribution of Getac S410 Dealer Diagnostic Support Laptop – MUT III

Dear Valued Business Partners,

Mitsubishi Motors Australia wish to advise that a new Getac S410 Dealer Diagnostic Support Laptop will be distributed to your Dealership to replace the existing MUT III - F110 Getac tablet, that has reached the end of its 5 year warranty support period. The new hardware will be sent direct to your Service Department, attention to the Service Manager. As advised in General Letter MMAL-22165, the new S410 laptop will have 5 years maintenance, support and warranty coverage through Bosch Australia. Any existing F110 Getac tablet hardware outside of the 5 year support period may remain supported on the Bosch XMS platform for up to 3 years (TBC) at your Dealership's discretion*.

The new Getac S410 Hardware will be supplied with a lockable docking station for additional I/O interfacing and security. The docking station may be used in conjunction with any existing MDC cabinet (a retrofit bracket will become available, cost and timing TBA) or cabinet/trolley of your Dealership's choice.

Charges for the new laptop hardware will be in the form of a one-off payment* as itemised below:

Description	Cost
S410 Getac semi-rugged Laptop, Intel Core i7 1165G7 processor, Dual battery option (74.5Wh x 2), 5 year warranty coverage, Gamber Johnson rugged docking station to suit S410 laptop.	$6,210.76
Shipping and handling	$50.00

MMAL advise that any Dealers wanting additional S410 Laptops, VCI's, cabling, etc are able to purchase these directly from the MMAL SST iPaper via Bosch Australia - https://product-catalog.boschaftermarket.com.au/mitsubishi/tools/ *.

**Charges relating to MUTIII and Clip Licenses, Hardware/Service Support and Technical Publications are charged separately, as part of the Dealer Consolidated Service Charges as Advised in General Letter MMAL – 22113.*

Frequently Asked Questions –

How do I opt in/out of the XMS platform for my existing Getac F110 tablet?

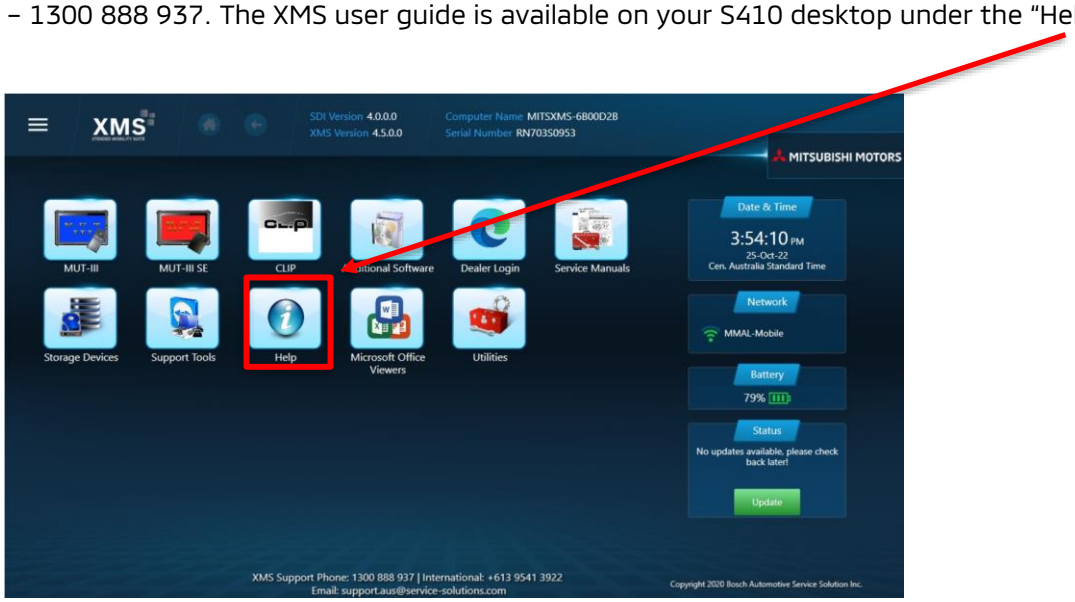

Once distribution of the new S410 has been completed, an update will be rolled out to existing F110 units asking if your Dealership wishes for that unit to remain connected to the XMS platform. If your Dealership opts in, the normal XMS, Clip and MUTIII charges* will continue to apply for that unit. If your Dealership opts out, XMS will no longer update on that F110 unit (MUTIII/Clip licenses on that F110 unit will expire and will cease to work after the expiry period).

What do I do with my unwanted/failed Getac F110 unit?

Your old Getac F110 unit can be sent to Bosch Australia for hard drive erasure and recycling/disposal. Alternatively, unwanted Getac F110 units can be disposed of in any E-Waste collection point (MMAL strongly recommends removal of any sensitive materials before disposal).

Who do I contact for support of my new Getac S410 hardware?

Bosch Australia – 1300 888 937. The XMS user guide is available on your S410 desktop under the "Help" button.

My Getac S410 hardware has not arrived – who do I contact?

Contact Bosch Australia for tracking of your Getac S410 Hardware – support.aus@service-solutions.com

For all other enquiries, contact MMAL – techsupport@mmal.com.au

Yours sincerely
Mitsubishi Motors Australia Limited

Phillip Hope
Director Corporate Strategy & Services
