19th January 2022

Attention: Dealer Principals, Service Managers, Foremen, Warranty Clerks, Technicians
Subject: MMAL - 22005 Introduction to the Technical Enquiry Support Solution

Dear Valued Business Partners,

Mitsubishi Motors Australia Limited is proud to announce a new Technical Enquiry Support System (TESS) and an updated Technical Support Request (TSR) process which will be facilitated within the existing Warranty Portal for our dealer network.

TESS will be available for all dealers to access from January 24th. Our objective for this exciting new solution is to provide dealers with a simplistic central body of technical information. Purposely designed to assist your dealership technicians with reducing repair turnaround times & improved first-time fix capability that will ultimately help your customer satisfaction.

We have developed the following new features that will serve for dealers to have more in-depth knowledge at hand for any vehicle issues.

- **New TSR process** designed to show relevant technical information for a vehicle to the user prior to submitting a TSR.
- **Published TSR** is a new resource that we are proudly implementing to provide dealers with a directory of curated TSR tickets. These contain valuable real life diagnosis stories and will be available to study before creating a TSR.
- **TSR Analytic Reports** is a new feature for providing valuable insights on the use of TESS and creation of TSR tickets.
- **Knowledge Library** is a comprehensive collection of technical documentation that has previously been difficult to find. It provides several search criteria to aid dealers in finding any published technical documentation that could can be utilised for quicker vehicle rectification.

We know that due to increased product complexity, difficulties can arise when diagnosing some concerns and technical assistance is required. TESS is integral to the TSR process moving forward, be sure to familiarise yourselves with the new features and take advantage of the benefits it provides to dealers.

To assist with the transition to TESS, please find attached a Quick Reference Guide, VIDEO, Terminology guide and TSR refresher. A self-service knowledge hub will also be available in the warranty portal for users, in addition to this for any support, questions or feedback please reach out to us via *TSR@mmal.com.au*.

Best Regards,

Phill Hope
Director, Corporate Strategy and Services
