Subject: MMAL – 21157 Universal 3 in 1 USB cable

Dear Valued Business Partners,

Todays "connected" lifestyles see us so reliant on our telephone, for business and play. With all the features available on smart phones and connected homes, our phone batteries are constantly being drained.

MMAL are pleased to partner with Directed Electronics to offer a quality universal 3 in 1 USB cable solution to meet the varied phone charging requirements of your customer's.

As these cables do not carry Mitsubishi Motors branding, they are a great opportunity for you to promote and sell these across your entire business including new & used cars, parts department and across your service counter.

Consider including these as part of your vehicle handover process to fully demonstrate the features of their vehicle and including as gift to thank your customer. You should find this small gesture will significantly lift your customer engagement and satisfaction with their vehicle and your dealership overall.
