Getac F110 Tablet Support

If you experience a technical hardware related error with your Getac F110 Tablet, contact the Bosch Technical Support Desk for troubleshooting advice or to arrange for the repair of your equipment.

In the event your tablet is not operating as expected due to software related issues, the Bosch Technical Support Desk will provide assistance to fix the issue or recover the operating system to factory default settings.

If your hardware issue cannot be resolved over the phone, the Bosch Technical Support Desk will issue a loan tablet for your dealership's use during the repair process.

The technical support desk will make arrangements for the shipping of your own unit and the loan equipment.

The equipment carries a 5 year warranty.

The following are excluded from warranty obligations in the Agreement and shall be considered out of warranty repairs:

- Fault caused by intentional abuse or misuse.
- Problem caused by defective accessories
- The equipment has been opened or modified in some way by Customer
- Software related problems such as Virus-Inflicted damage
- Broken or cracked LCD screen
- Damage attributable to fire, theft or situations of force majeure
- Damage caused by environmental influences (storms, magnetic fields, etc.)
- Damage not caused during normal operation of the product
- Damage that is purely cosmetic and does not affect the operation of the product: wear and tear, scratches or traces of impact
- Introduction of a liquid or any other foreign body into the computer
- Improper installation, operation or maintenance
- Incorrect connection to a peripheral
- Incorrect adjustment of the controls such as altering the computer functions
- Modifications or service carried out by any person other than Getac or its authorised service provider

VCI/VCI-Lite Support

For technical support of your Mitsubishi VCI/VCI-Lite first contact Bosch Automotive Service Solutions Support Desk.

If the technical team identify the issue is a hardware related error with your VCI/VCI-Lite, Bosch Technical Support Desk will issue a loan VCI-Lite for your dealership's use during the repair process.

The Technical support desk will make arrangements for the shipping of your own unit and the loan equipment.

Mitsubishi Accessories Support

If you experience a technical hardware related error with your Mitsubishi accessories, Please contact Bosch Automotive Service Solutions Helpdesk Hotline to check the warranty status of the accessories.
