This guide provides additional detail and screen shots to support WIB2026-01

Overview

The updated Warranty Portal features a redesigned cleaner landing page, providing at-a-glance visibility of claim status, clearer consolidation of related subject matter, and prominent highlighting of key information.
The presentation of claim and vehicle information has been enhanced with all relevant details now displayed in a single-page layout, reducing the need to navigate between multiple pages to access information.
In-page navigation has also been introduced, allowing users to select a menu heading and move directly to the relevant section of the page, enabling faster access to key information.
Overall, these improvements are designed to improve visibility, reduce navigation steps, and support more efficient access to service and warranty information.
The key features and changes are explained below.

For you

- **Quick Navigation**: This panel provides fast, direct access to a VIN or a specific Claim, Authority, DQR or TSR.
  Enter the required reference and select **Go** to be taken directly to the corresponding screen.
- **Service Operations & Warranty Links** are now easily accessible from the Warranty Portal landing page.

Warranty Claims

This section provides two quick-reference tables to help you easily monitor claim status and prioritise follow-up actions:

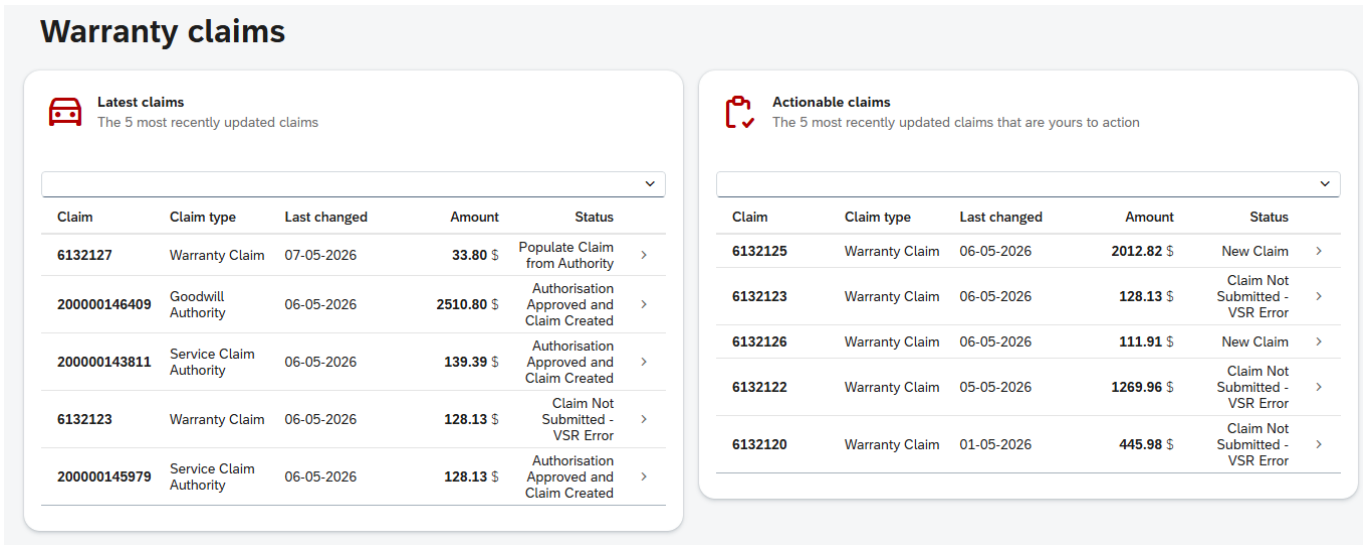

- **Latest Claims**: displays your five most recently updated claims, whether actioned by you or MMAL allowing you to quickly keep track of status changes.
- **Actionable Claims**: displays the five most recently updated claims that require your action for processing to continue.

These tables provide an at-a-glance view to support efficient claim management and timely follow-up.

- **Claim Type Filtering**

By default, both quick-reference tables display all claim types.
To refine the selection:

- select the arrow icon, and
- choose the required claim type(s) from the list provided.

The selected claim types will then display in the Claim Type field.
