Warranty Audit Bulletin

WAB 2014 002 Subject: DTC & DQR

✓Dealer Principal ✓Service Manager ✓Warranty Clerk

Over the last few months it has come to our attention that there has been a marked increase in the level of non-compliance of recording DTC's and the submission of DQR's.

Further, the DTC's & the DQR number are not being recorded in the remarks section of the warranty claim.

Whilst in some cases the dealer has the required information recorded on the RO there has been many incidences where this information is not being transposed to the warranty claim.

The submission of DQR's and DTC's is a vital part of MMAL's ability to report quality issues to MMC. This assists MMC to determine priorities of investigations and subsequent issuing of production fixes and Hotline Fixes etc.

We would recommend that all persons involved in the recording of DTC's and the preparation of DQR's familiarise themselves with the mandatory requirements of the various General Letters, Hotline Fixes and Recalls etc.

From an audit perspective where the requirement of DTC's and or a DQR are mandatory as indicated in the various General Letters, Hotline Fixes and Recalls, the auditors will have no alternative but to record the discrepancy if that information is not recorded in the correct manner. This may result in the loss of the value of the claim.

Regards,

Chris Read MIAME
