It is important that dealers supply the correct information to the person who is raising a Service Centre Authorisation (SCA). We have noticed an increase in Warranty Service Claims (WSC) where the claim repair order number is wrong or the approved amount has been exceeded. Particular attention should be paid to correctly identifying the claim suffix (hash number) if this is used.

Dealers should never request that a claim be cancelled and resubmit under a different number to match the SCA. If details have been incorrectly supplied to the person authorising the repair then the correct information should be sent with a request to update the authority.

TECHNICAL PROBLEMS WITH WARRANTY CLAIM UPLOADS
Dealers who are experiencing technical problems with claim uploads, or problems logging into the MMAL Extranet should first ensure that the problem is not at their end. After this has been done Dealers should contact the Mitsubishi Customer Assistance Centre on 1300 13 12 11 for further assistance. Dealers must not ring the Warranty Hot Line with these types of problems. The warranty clerks do not have access to passwords and have no technical expertise. Nor do the warranty clerks have expertise in Dealer Systems such as Reynolds and Reynolds etc. problems using these systems should be referred to the Dealer System contacts as appropriate.
