MIRAGE AIR CONDITIONING FITMENT

It has come to our attention that many dealers are not aware that Mirage Air Conditioning fitment can be claimed via the Warranty System as Dealer Fitment in the same way as Lancer and Starwagons. This is applicable for Mirage's with an RDA after April 1st, 2002 . Details of this were published in the "Incentives Bulletin of April 2002".

Dealers who may have missed this announcement and have not been claiming for Mirage A/C fitment should contact the Warranty Department to discuss lodgement of back claims.

USE OF "NFP" ON RECALLS

The use of NFP as a "Causal Part" when parts are replaced will cause the claim to be "Returned for Correction" (RFC). "NFP" should only be used when an "Inspection Only" operation has been performed. This instruction should be included on the Recall Notice but may not appear on some older Recalls. The use of NFP as a "Causal Part" on Recall (Type "S") Claims should only be done when no parts have been used. Some dealers are using NFP when parts have been supplied free of charge or when the Recall Notice instructs the instant destruction of parts.

Dealers who find that a second destruction or hold notice is issued via the "Parts Disposition List" should advise the Warranty Department so that these parts can be suitably marked.

SOME GENERAL REMINDERS

The most common mistakes being made by Dealer Warranty Clerks in recent times when ringing the Warranty Department refer to not reading the "Error Messages" correctly. Before contacting the Warranty Hot Line make sure that you have checked the "Error Message" for the correct Line Number and Page Number this should make correcting the claims a lot easier.
