WARRANTY INFORMATION BULLETIN

WIB 2004-01 14/01/2004

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

1. New Year Systems Problems.

By now all dealers should have received notification about the information systems (computer) problems that occurred over the New Year. As a result an unscheduled warranty system payment run occurred over the New Year weekend. As previously advised MMAL Finance department did not process the New Year run but held over the payment to be consolidated with the payment run scheduled for 13 Jan 2004. Therefore, you will find included with this weeks mail out two "Recipient Created Tax Invoices". The balance of these two invoices (also known by many as a "Status Report") will equal the cheque that your Dealership will receive from MMAL Finance dept. Can you please ensure that the appropriate staff in your dealership are aware of this situation to assist with account reconciliation.

2. Parts return via TNT Transport.

I had previously advised that with the change over to TNT Transport as the general freight carrier for MMAL that new Consignment Notes would be available with this mail out. Unfortunately these have not yet been delivered to us. As a result we ask dealerships to continue to hold warranty returns until we are able to provide new Consignment Notes. Dealers who find they are stretched for space can contact the Warranty Department and we will make separate arrangements on a case by case basis. Your cooperation in this matter is appreciated and we apologise for the inconvenience.

3. Email Address in Deacon

Dealers are reminded of their obligation to maintain correct email addresses in DEACON. Varying sections within MMAL uses these addresses. As a means of improving communication with Dealership Service Departments email will be used on an increasing basis in the future, particularly for urgent notifications. If you require assistance in setting up or modifying email addresses in DEACON please contact the MMAL Helpdesk.

4. DEACON check BEFORE performing work on vehicles.

It is the responsibility of Dealerships to check DEACON prior to working on a vehicle to check for outstanding campaigns. This is done by looking for the words

"**** OUTSTANDING SERVICE PROGRAM ****"

on the Vehicle Enquiry screen in DEACON or the Warranty System. Dealers MUST then check the "SERVICE PROGRAM DETAIL" screen to see if a claim has already been submitted indicating that the campaign has been completed previously but the claim has not yet been finalised. The word RECEIVED will appear under the CLAIM column next to the appropriate campaign in this case. If a Dealer believes that the campaign has NOT been completed they should contact the Warranty Hotline for clarification.

To contact Warranty Payments Administration:
Telephone Warranty Hot Line: (08) 8275 2367
Fax: (08) 8275 2496
e-mail: mmal_warranty_admin@mmal.com.au
Address: Level 2A, Mark Oliphant Building
Laffer Drive, Bedford Park
South Australia 5042

5. TRITON GLS A/CFIT

Dealers should have received notification of the procedure for claim fitment cost to Triton GLS just before Christmas. Below is a summary of that notification. Fitment cost are covered for vehicles wholesaled after 01/10/2003.

Applicable Vehicles and Value of Claim

Pet Name	Model Code	Value
Triton GLS	MK0X47	$190.00

Note: These Values include Vehicle Preparation and therefore this is not to be claimed separately.
