WARRANTY INFORMATION SYSTEM (WIS 4)

Please find a copy of WIS Version 4 enclosed with this Warranty Information Bulletin.
WIS 4 should be loaded as soon as possible to prevent Version 3 reaching its licence expiry date.

WIS 4 includes the long awaited Electronic Warranty Claim Submission System. It is expected that this system will replace the use of Click and Add. It provides a number of benefits which include :

- Quicker and easier claim submission,
- A database of claims which can be used for claim reconciliation, claim re-submission etc
- The ability to import data such as VIN's, LOTS times and Labour details directly into the claim form reducing errors and re-keying.
- New models including BA Grandis, RG Colt, ZF Outlander, CH Lancer Sedan and Wagon, and CZ Lancer Evo VIII.
- Corrections and additions to a number of existing models including NP Pajero, CG/CH Lancer.

The claim submission feature will eliminate the need to hand write claims for resubmission on DMS systems that do not include this feature. They can be submitted on line, using the claim submission form included on the WIS.

Dealerships currently on the Click & Add submission system will need to complete an Electronic Claim Registration Form that can be located on the WIS 4 help menu under forms. Under the heading "Dealer Management System Used" please write "WIS"

We are currently conducting training sessions, which incorporate Warranty Claim Submission using the WIS 4 in all States. Dealerships will be advised of training dates in the near future.
