ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

Correct Procedure when claiming For Failed Batteries.

When claiming for failed batteries please ensure that the 8 character failed code is listed in the remarks section of your warranty claim. Listing of the correct code will ensure full and prompt reimbursement of the warranty claim.

The procedure for a parts claim when claiming for failed batteries is slightly different. MMAL will pay for the fitting of the new battery as well as the workshop allowance. The correct part number to use when a battery is being replaced as a parts claim is PANDABAT. There is no dollar amount to be listed against this failed part, as there is an exchange procedure in place with the battery supplier GNB. Please refer to General Letter GL-02-029

Correct Procedure When Claiming For Exchange Audio Unit's, Exchange Clusters, & Exchange Displays.

If a vehicle requires an audio unit to be changed as part of a warranty claim MMAL will pay for the removal and the fitting of the exchange unit. The correct part number to be used when submitting a claim for a failed audio unit is XAUDIO.

When fitting an exchange dash cluster the correct part number is XCLUSTER. When fitting an exchange display, clock & trip computer, the correct part number is EXCTDISP.

Arrival Damage Claims.

With warranty claim's for arrival damage, if the claim is in RFC status with the error messages of "Insufficient Information For Judgement" & "Supporting Documents Required From Dealer". We are requesting that you send a copy of the pink Vehicle Survey Report. It can be faxed to MMAL Warranty Administration on (08) 8275 2496, or a scanned copy can be e-mailed to the Warranty Administration e-mail address listed below.
