WARRANTY INFORMATION BULLETIN

WIB 2005-13 4/11/2005

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

New Warranty Information Bulletin Procedure.

This Warranty Information Bulletin is the first in a new format. In future all Warranty Information Bulletins will be posted on the Dealer Extranet. An e-mail will be sent to all Dealer Service Managers to inform them of a new bulletin being posted. This will see an end to the previous format where green paper copies were mailed out to warranty administrators with the warranty payment information.

Mitsubishi 380, Driver's door glass replacement. Recall 020059.

Where window tint has been fitted to the drivers door glass the Dealer is to claim the extra cost on a **SEPERATE** labour line. This separate line should read 020059 as a position code and 99 as a work code. The dollar value must be identical to the pre GST amount on the sublet repair's invoice for window tint. All invoices to substantiate tint fitment and costs MUST be retained with the Repair order for audit purposes.

Claim type for recalls.

At present there are a number of vehicle recalls in the system. We are continuing to see a great deal of recall claims with a claim type of "W". Recalls **must** be a claim type of "S"

Warranty claiming for failed part numbers beginning with Z

As per the after market parts warranty bulletin any failed part numbers that begin with the letter Z are not to be claimed through the warranty system. The correct procedure for claiming warranty for part numbers that begin with the letter Z is that they have to be claimed from the manufacturer.

WIS Version 6 VIN search error

Infomedia has advised us that there is an error with the WIS version 6 VIN search feature. The information can at times be unreliable. At present the error is being rectified and new WIS version 6 discs will be supplied to dealers. All other aspects of the WIS are functioning normally.

Ian K. Matthews
Warranty Manager
Aftersales, Sales & Marketing
