LDCVEW	5 YEAR (60 MONTHS) / 100,000km warranty is loaded on to the warranty system for this index, but if the presented vehicle is outside of these parameters then contact the Mitsubishi Warranty Hotline to verify the vehicle's end kilometres and end date.

These indexes have been created and the affected vehicles will progressively have their existing warranty index changed to one of the new indexes shown above.

If dealers are unsure of the conditions applicable to a warranty index, then doing a vehicle enquiry can check this. When the vehicle enquiry screen is selected, then press F8 – 'Warranty Conditions' and the time and kilometre limits are then shown for each warranty group within the warranty index.
