Explanation of Warranty Indexes

To assist dealers with an explanation of warranty indexes, the matrix below has been created to identify the warranty conditions of each warranty index currently loaded in the MMAL warranty system.

This matrix is current as of the date of publishing this bulletin and as such, new warranty indexes may be added to the warranty system after this date. If a vehicle presents with a warranty index that is not on this list, contact MMAL warranty for more information.

Dealers are also reminded that the warranty conditions of a warranty index can be obtained by doing a vehicle enquiry, and from the vehicle enquiry screen (PF12), then select PF8 – warranty conditions. This will show the time and kilometres applicable to each part of the warranty index.
