WARRANTY INFORMATION BULLETIN

WIB 2007-08 10/07/2007
REVISION 1

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

This bulletin supersedes the previous bulletin WIB-2007-08 dated 27/06/2007.

Cause Part for Scheduled Service Claims

Since the inception of scheduled service claims submitted through the warranty system, there has been no requirement for dealers to nominate a specific causal part on the claim. In the past, scheduled service claims have always had one of the parts in the parts list nominated as the cause part. For example oileng, coolant or the part number of a filter etc.

To assist with warranty analysis and to help dealer audit staff, it has been decided to create a generic part number/name for all scheduled services claimed through warranty to be used as the causal part.

The part number/ name of this part is **SCHEDSERVC**. This part number/name is to be nominated as the **causal part** and is to be entered as 1 unit and for zero dollars in the parts list.

This new requirement becomes **effective July 11th 2007**. Therefore all scheduled service claims submitted with a repair date on or after July 11th 2007 must adhere to this procedure.

With the introduction of this new part number, it is important that the part number is nominated as the **causal part** as failure to adhere to this new procedure may result in a delay in payment of the warranty claim. The claim must also meet audit requirements and could be reversed at audit if this procedure is not followed.
