# WARRANTY INFORMATION BULLETIN

WIB 2008-14 23/07/2008

## ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

## Non Genuine Parts used for Warranty

This Warranty Bulletin is to advise dealers on how to correctly claim a warranty claim when a non genuine part is used.

From time to time it may be necessary to use a non genuine part for a warranty repair. When this is the case, the warranty claim MUST be authorised and approval must be given PRIOR to performing the repair.

When the warranty claim is submitted, the part number that is used in the parts section of the claim for the non genuine part is NONGENUINE and the amount claimed will be the amount on the invoice less GST.

If additional parts are required to complete the repair, then these will be listed in the parts section of the claim along with the part number NONGENUINE. The applicable cause part number must be nominated and if this is the part that was replaced with the non genuine part, then NONGENUINE will be the cause part number.

All invoices and correspondence applicable to this repair must be kept with the repair order.

Failure to adhere to this procedure may result in a delay in payment of the warranty claim. The claim must also meet audit requirements and could be reversed at audit if this procedure is not followed.
