This Bulletin forms part of the Warranty Procedure Manual.

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

Critical Error Reports

This Warranty Bulletin is to advise dealers of some of the common errors that are made with warranty claim submissions that result in a critical error.

The MMAL Warranty department receive a daily report of warranty claims that were submitted the previous day but for some reason have not loaded on to the warranty system due to an error. This is called the 'Critical Error report'. A list of some of the more common critical errors and subsequent fixes are shown below:

Error Message	Cause	Remedy
Duplicate work order	Resubmission of paid claim	Check the status of all suffixes of the claim before resubmitting the claim. A warranty claim can only be resubmitted when in RECVD and RFC status. Any other status will cause a critical error. When the claim has multiple suffixes, all suffixes must be resubmitted at the same time.
Duplicate work order	Resubmission of partially paid claim. Where not all parts of the claim were initially submitted, but those that were, have been paid.	Request MMAL Warranty Admin to 'back out' the claim and when the claim has been returned to RFC status, resubmit all parts of the warranty claim together.
Duplicate work order	Resubmission of a claim when all suffixes on the claim are in RECVD status on the day of a pay run.	Contact MMAL warranty to have the claim put in to RFC status. Then resubmit all suffixes of the claim with the corrections.
Duplicate suffix	Duplication of the claim details submitted. Clicking on the 'FTP to MMAL' button more than once.	Only click the 'FTP to MMAL' button once.
HA Rec Not = Prev	There is a discrepancy with the data on the 'HA' line of the claim. ie, the VIN, Odometer and Repair Date.	The data on the 'HA' line of each suffix of the claim must be the same.

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367
Fax: (08) 8275 2496
e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au
Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

Claim status invalid	The warranty claim has been resubmitted when the status of one or more suffixes is in either PROCE, DISAP, BACK or CANCEL status	Check the status of all suffixes of the claim before resubmitting the claim. A warranty claim can only be resubmitted when in RECVD and RFC status. Any other status will cause a critical error. When the claim has multiple suffixes, all suffixes must be resubmitted at the same time.
Invalid parts/labour amount	The dollar amount format entered on to the claim is not in the format 0.00	When entering the dollar amount on to the claim, the format must be 0.00. When submitting claims via the WIS, the dollar format must be physically entered.
Invalid parts units	The wrong or no unit amount has been entered on to the claim.	Check that there is a valid unit amount entered on to the claim.

If a critical error report is produced, then the MMAL Warranty department will email a copy of this report to the claiming dealership. The email address that the report will be sent to, will be obtained from what has been loaded in Deacon under the 'Dealer Email Maintenance' screen. The email address (or addresses) loaded under the category of "warranty" will be used to send the critical error report. Where there is no email address under this category, either the email addresses loaded under the category of "service" or "svce mgr" will be used. Please ensure that email addresses are kept up to date and that any new email addresses are added in to Deacon and any obsolete email addresses are removed.

Emails will be sent to dealers from the MMAL warranty administration email address:
warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au
Please ensure that your dealership is set up to receive emails from this email address so that they are not treated as 'spam' and are blocked.

As a reminder, dealers should be checking their warranty claims the following day after submitting them (or as soon as possible after submitting them when warranty clerks are working part time). It is the dealer's responsibility to ensure that claims are received by MMAL Warranty in the prescribed time outlined in the Service Procedure Manual. A claim that is rejected due to a critical error is not considered to be received by MMAL. A claim must appear in the warranty system to be considered received.

Failure to adhere to the above requirements may result in a claim not being paid or reversed at a later date. The claim must also meet audit requirements and could be reversed at audit if this procedure is not followed.
