Triton Canopy Replacements and Disposition

This Warranty Bulletin has been created to reinforce the requirements of MMAL for dealers to hold defective Triton canopy parts and to advise dealers of the difference between a Warranty part disposition and a Parts and Accessories part claim. This bulletin also reminds dealers of the claim requirements when submitting a warranty claim (P type claim) for a defective Triton canopy.

Warranty Disposition versus P&A Part Claim

This section of the Warranty Information Bulletin will advise dealers of the difference between a defective part claimed under warranty that is required to be held (warranty disposition) and a part that is found to be defective prior to fitting to a vehicle (P&A part claim).

- Warranty Disposition: All parts replaced on a vehicle that have been claimed under warranty must be held at the dealership (in accordance with the requirements outlined in the Service Procedure Manual and MMAL Warranty Procedure Manual) for 90 days from claim payment date. At the cessation of the 90 day hold period, dealers are instructed to destroy the parts unless otherwise instructed. eg WIB-2010-09.
- P&A Part Claim: From time to time a part may not be up to new part quality upon arrival at the dealership and prior to vehicle fitment. That is, the part exhibits a noticeable defect. In this instance, this is NOT a warranty claim and MUST NOT be claimed through the MMAL warranty system. Therefore, the part is not required to be held as a part for a warranty claim would be. Dealers should follow the instructions as outlined in the MMAL P&A policy and procedures manual with regards to the storage, return or disposal of the part.

Claim Instructions for Failed Canopies

The procedure for warranty claim submission of canopies is detailed in Warranty Bulletin WIB-2011-01.

Destruction of Canopies after 90 Days

At the cessation of the 90 day hold period, dealers are instructed to destroy the canopies as they would any other held part. As part of the destruction process dealers must take a photo of the destroyed canopy and include the serial number in the photo as proof of destruction. The photo must be of sufficient clarity to clearly identify the serial number. The photo should also be resized to allow ease of sending and storage.
