MITSUBISHI MOTORS

WARRANTY INFORMATION BULLETIN

WIB 2012-03 29/08/2012

This Bulletin forms part of the Warranty Procedure Manual.

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

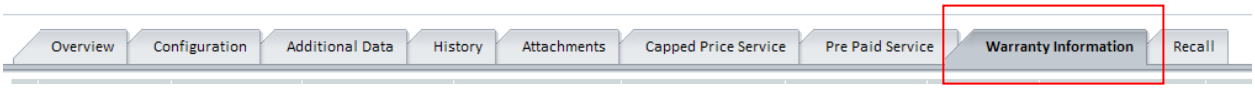

Frequently Asked Questions Guide

- **Vehicle Warranty Identification**
  A vehicle warranty condition consists of warranty groups which identify the vehicle's warranty terms. The format will consist of the warranty group (2 characters), period in months, and distance in thousands of kilometres. For example, 01-60-130 represents bumper to bumper, 60 months and 130,000 kilometres. The current list of warranty groups is shown below.

C1-60-99:	BODY PANEL PERFORATION WRTY, 60 months, Unlimited kms.
E1-60-130:	EMISSION SYSTEM WARRANTY, 60 months, 130,000 kms.
D1-60-130:	ELECTRONICS SYSTEM WARRANTY, 60 months, 130,000 kms.
01-60-130:	BUMPER TO BUMPER, 60 months, 130,000 kms.
S3-60-130:	SAFETY PARTS, 60 months, 130,000 kms.
P1-120-160:	POWER TRAIN WARRANTY, 120 months, 160,000 kms.
E2-120-160:	EMISSION/P-TRAIN BOTH APPLY, 120 months, 160,000 kms.
02-12-20:	LIMITED SERVICE LIFE, 12 months 20,000 kms.
AX-36-130:	ACCESSORIES, 36 month, 130,000 kms
C1-0-0:	BODY PANEL PERFORATION WRTY VOID
E1-0-0:	EMISSION SYSTEM WARRANTY VOID
D1-0-0:	ELECTRONICS SYSTEM WARRANTY VOID
01-0-0:	BUMPER TO BUMPER WARRANTY VOID
S3-0-0:	SAFETY PARTS WARRANTY VOID
P1-0-0:	POWER TRAIN WARRANTY VOID
E2-0-0:	EMISSION/P-TRAIN BOTH APPLY WARRANTY VOID
02-0-0:	LIMITED SERVICE LIFE WARRANTY VOID
AX-0-0:	ACCESSORIES WARRANTY VOID
C1-72-130:	BODY PANEL PERFORATION WRTY, 72 months, 130,000 kms.
E1-72-130:	EMISSION SYSTEM WARRANTY, 72 months, 130,000 kms.
D1-72-130:	ELECTRONICS SYSTEM WARRANTY, 72 months, 130,000 kms.
01-72-130:	BUMPER TO BUMPER, 72 months, 130,000 kms.
S3-72-130:	SAFETY PARTS, 72 months, 130,000 kms.
E1-60-100:	EMISSION SYSTEM WARRANTY, 60 months, 100,000 kms.
E2-120-100:	EMISSION/P-TRAIN BOTH APPLY, 120 months, 100,000 kms.
D1-60-100:	ELECTRONICS SYSTEM WARRANTY, 60 months, 100,000 kms.
01-60-100:	BUMPER TO BUMPER, 60 months, 100,000 kms.
S3-60-100:	SAFETY PARTS, 60 months, 100,000 kms.
P1-120-100:	POWER TRAIN WARRANTY, 120 months, 100,000 kms.
AX-36-100:	ACCESSORIES, 36 month, 100,000 kms
GW-99-999:	GOODWILL, Unlimited months, Unlimited kms.

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367
e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au
Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

A screen shot of a vehicle's warranty conditions are shown below. To locate this information, the following steps must be followed.
In the portal, Click on the 'My work' tab, then 'Service' tab, then 'Vehicle Search' drop down arrow and then 'Vehicle Search'. Then enter the VIN in the Vehicle ID No. (VIN) field (or other search details shown with a *) and click the 'Start' button. Click on the Internal Vehicle Number and the 'Overview' tab will default. Click on the 'Warranty Information' tab to show the warranty conditions.

When checking a vehicle's warranty condition please ensure that you scroll to the bottom of the screen to view all warranty conditions. Check the columns
'Warranty Type Text' eg E1-60-130
'Check Result' eg  In Warranty,  Warranty Expired
'Start Date' eg 17.06.2010
'Calculated End Date' eg 16.06.2015
as these are the most important columns on this screen. You will have to scroll across the page to view all columns on this page.

Master Warranty Details

Warranty Type	Warranty Type Text	Check Result	Check Result	Master Warranty	Description Master Warranty	Start Date	End Date	Check Date	Object Text
B	E1-60-130	✓	00	2000000001	E1-60-130	17.06.2010		10.04.2012	
C	D1-60-130	✓	00	2000000002	D1-60-130	17.06.2010		10.04.2012	
D	01-60-130	✓	00	2000000003	01-60-130	17.06.2010		10.04.2012	
E	S3-60-130	✓	00	2000000004	S3-60-130	17.06.2010		10.04.2012	
F	P1-120-160	✓	00	2000000005	P1-120-160	17.06.2010		10.04.2012	
G	E2-120-160	✓	00	2000000006	E2-120-160	17.06.2010		10.04.2012	
H	02-12-20		03	2000000007	02-12-20	17.06.2010		10.04.2012	
I	AX-36-130	✓	00	2000000008	AX-36-130	17.06.2010		10.04.2012	

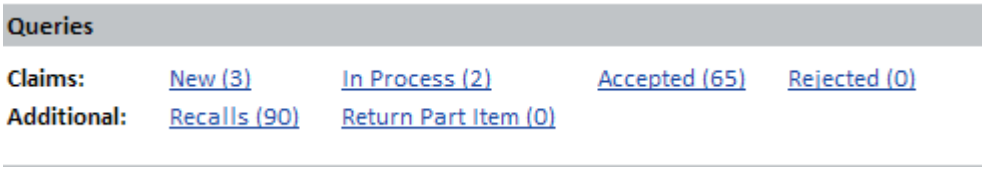

When a warranty void (Restricted Warranty*) has been applied there will be multiple entries for the same group code. The void warranties will appear below the standard warranties but will take precidence. Please check the start date and end dates to determine which warranty applies.

*Please note Mitsubishi Motors Australia Ltd do not remove warranty from a vehicle, but retain the right to judge a claim on it's merits. The application of a warranty void advices a Dealer that Head Office approval must be gained prior to repairing a vehicle as a warranty claim.

- **Case Sensitive Characters**
  Claims submitted via WIS must have ALL alpha characters (non numeric) entered as upper case. Characters entered as lower case will create an error and the claim will not be accepted by the Warranty system.

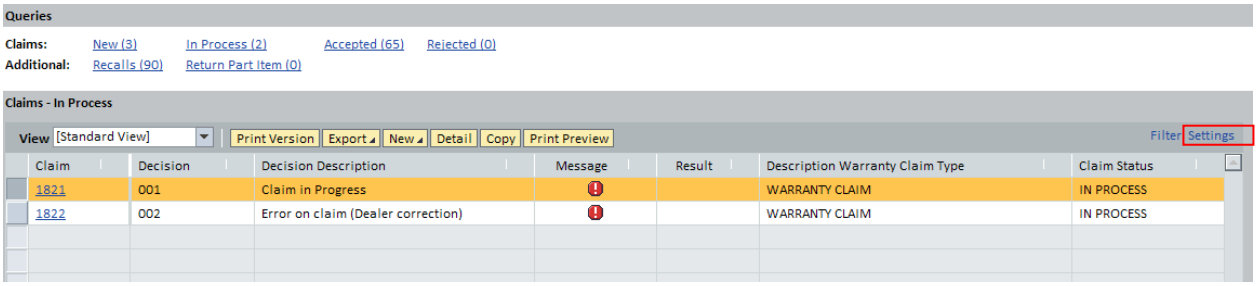

- **Viewing Decision and Decision Description**
  Dealers can check the decision and decision description of their claims as shown in the screen shot example below. To locate this screen, click on the 'My work' tab, then 'Service' tab, then 'Work Overview' and 'Work Overview' again from the drop down menu.

  At the top of the page there is a summary of claims and their current status.

  Claims with status of New are represented with the claim status 0001, In Process has a claim status of 0002, Accepted has the claim status 0004 and Rejected has the claim status 0003.

  In this example, the In Process claims have been selected. The first claim 1821 has a decision of 001 (previously known as PROCE) which means the claim is in progress and the second claim 1822 has a decision of 002 (previously known as RFC) which means the dealer must make a correction to the claim. The other decision codes (not shown in this example) are 003 – claim rejected and 004 – claim accepted.

The two columns 'Decision' and 'Decision Description' have been customised in this example. These and any other columns can be customised by clicking on the 'Settings' button (highlighted in red).

If Dealers click on the specific claim (eg 1821), then the following screen is shown. The Decision 001 – Claim in Progress is shown and the Claim Status 0002 is shown.

- **Claim submission via DMS**
  Dealers are reminded that claims can only be submitted using WIS. If Dealers are still submitting via DMS, they must stop immediately and submit their claims using WIS. For information on how to submit claims using WIS, please refer to the SAP training material.

  Dealers that continue to submit claims using their DMS will find that their claims are not loaded on to the SAP Warranty system and the transferred file will be deleted.

- **RCTI's**
  Dealers can locate their RCTI's by logging on to the Dealer Portal, and then click on the Reports tab to see their dealer code. Click on the dealer code and then click on the Finance link and then click on the Other Invoices link. This will show a pdf link if there is an RCTI to download. Click to open the pdf document and view the RCTI. If you wish to print the RCTI, then either hover over the document and click on the print icon or use the keyboard and hold down the Ctrl and P keys to print the document.

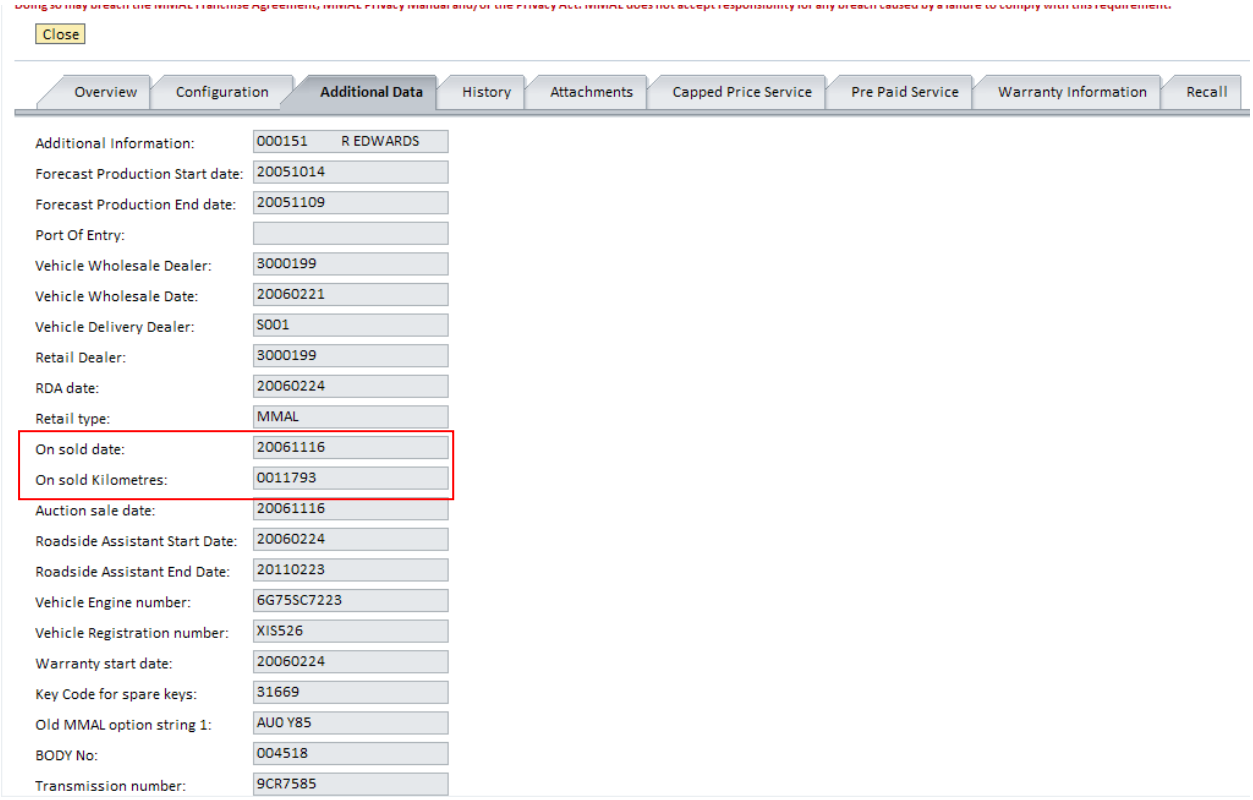

- **Cash Sale Claims**
  Please refer to WIB-2012-06.

- **Recall Campaigns and Service Campaigns**
  There are several issues relating to recall and service campaigns affecting the SAP system.
  1. ~~Some of the recall and service campaign position codes have not loaded in to the new SAP system from the old system. These are being worked on and will be loaded shortly.~~ THIS HAS BEEN RECTIFIED AND ALL VEHICLES HAVE NOW BEEN LOADED.
  2. MMAL are experiencing an error with the recall and service campaign system when a recall or service campaign claim is submitted. When the claim is submitted the vehicle is marked off the campaign register, but at the moment the campaign is being marked off before the claim is judged. The system is then advising an error to say the campaign is not outstanding. MMAL is aware of this fault and are currently working on it.

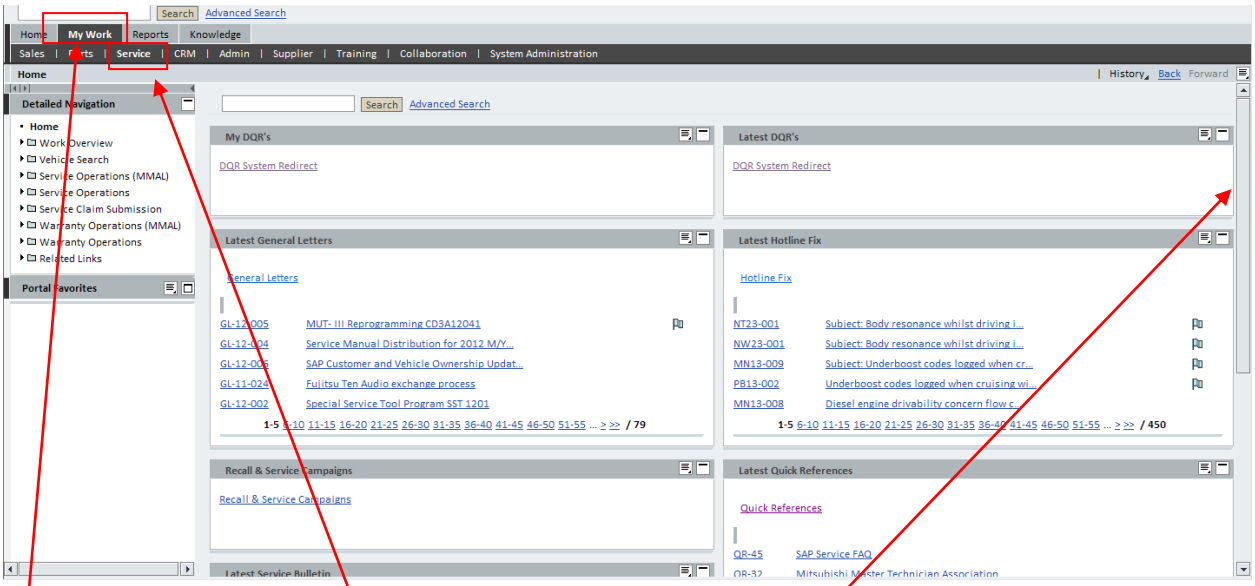

- **Diamond Advantage Vehicles**
  To check a Diamond Advantage (On Sold Vehicle) new start date and new start kilometres, click on the My Work tab in the dealer portal, then click the Service tab. In the Detailed Navigation menu, click on the Vehicle Search drop down arrow and then click on Vehicle Search. Then type in the VIN of the vehicle in to the Vehicle ID No. (VIN) field and click Start. This will bring up the summary vehicle details screen. Click on the Internal Vehicle Number to show detailed vehicle information (screen shot shown below).

If you click on the History tab, this will show if the vehicle is a Diamond Advantage vehicle (On Sold vehicle) or not and if you click on the Additional Data tab this will show what the new On Sold date and new On Sold kilometres are (see screen shot below).

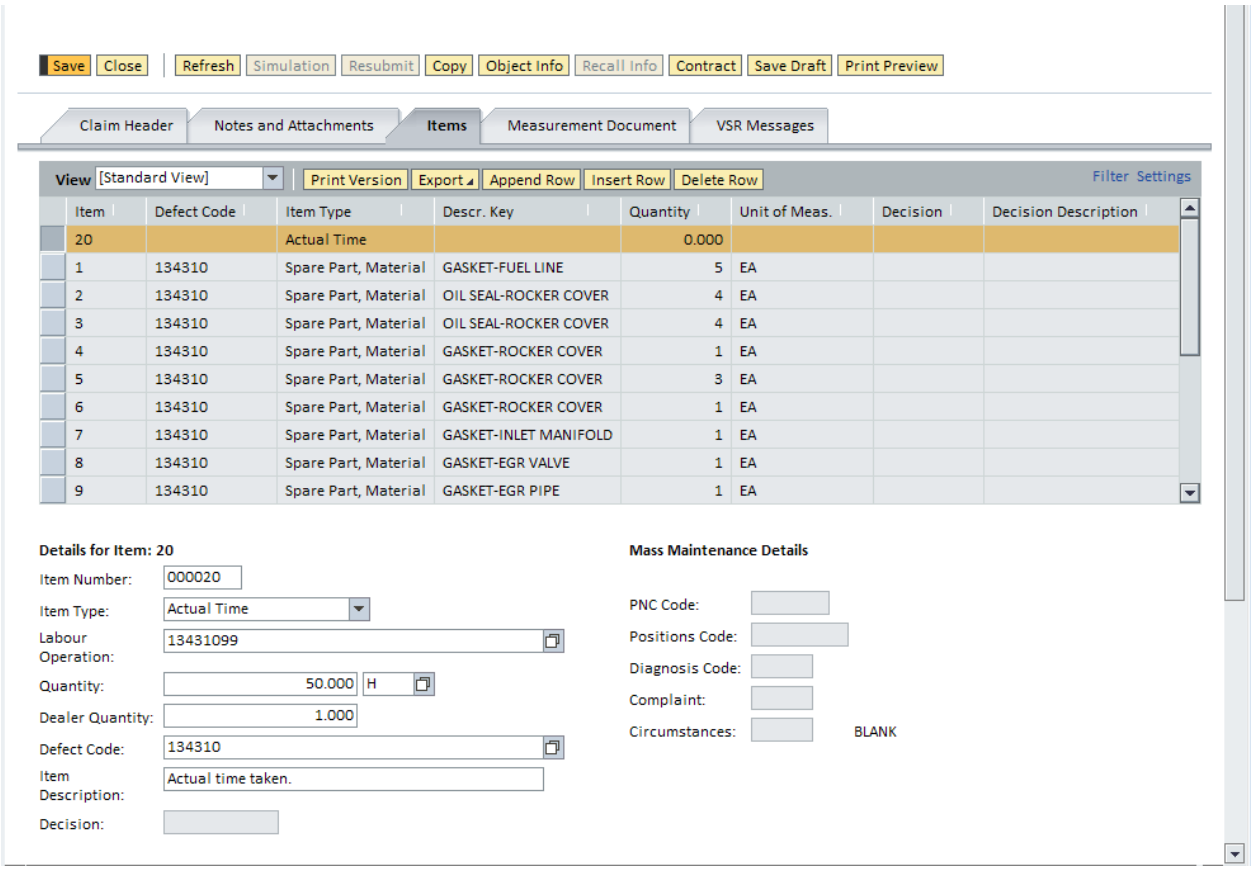

- **Dealer Portal Service Home Page**
  Please see the screen shot below of the Dealer Portal Service Home Page. This can be viewed by logging onto the Dealer Portal, click on the My Work tab and then the Service tab. This will show the Service Home Page. The Service Home Page will show all relevant Service and Warranty documents that are required. To view the Warranty Bulletins and Service Bulletins you will need to scroll down the page using the scroll bar to view.

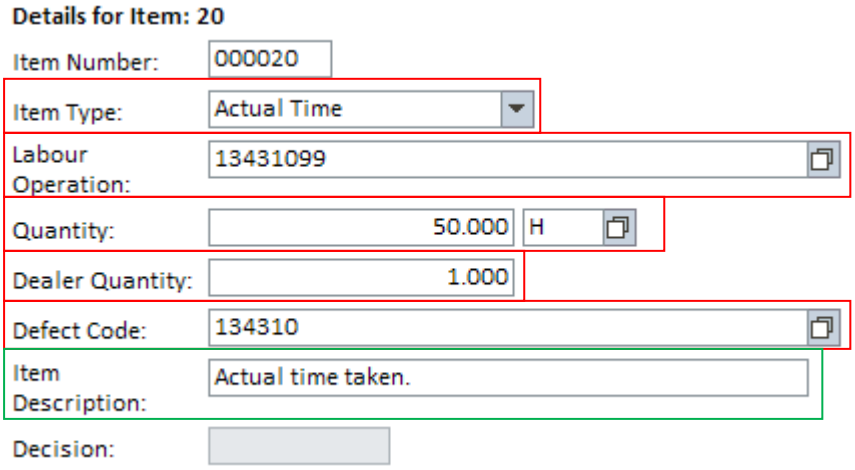

- **Inserting Actual Time**
  When Dealers are required to insert an additional line to a claim and the additional line to be added is for Actual Time (99 work code), then Dealers must insert data in all fields applicable to the line.

  Below is a screen shot which shows the fields that must be completed to correctly insert the line.

  Enter the Item Type as Actual Time. This is selected from the drop down menu.
  Enter the applicable data in the Labour Operation field. In the example from the screen shot below, 13431099 has been entered.
  Enter the Quantity field with an actual dollar amount and enter the Quantity Unit as H for hours.
  Enter the Dealer Quantity field with 1.000.
  Enter the applicable defect code in the Defect Code field. In this example 134310 has been entered.
  Enter Item Description. This field is not mandatory, but can be used to type free text.

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367

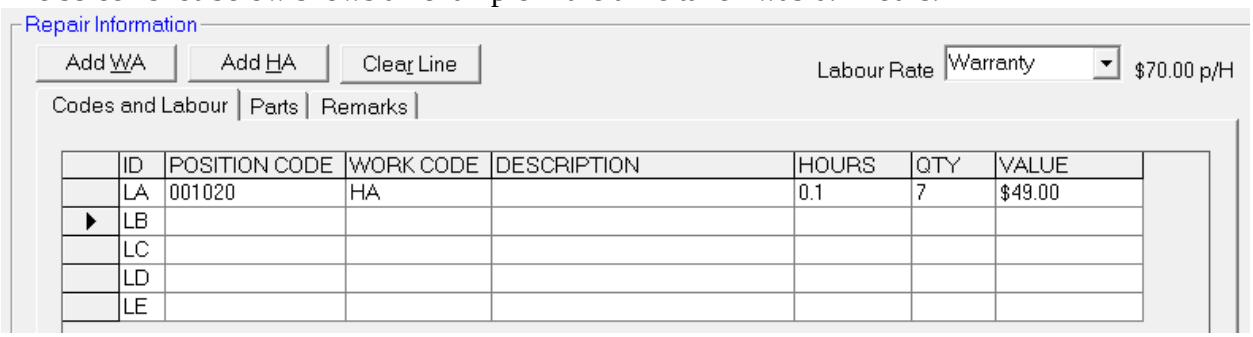

e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au

Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

- **Handling Allowance**
  To enter Handling Allowance on to a claim in WIS, DO NOT click on the Add HA tab. Please add the handling allowance by manually typing in the Position Code (001020), Work Code (HA), Hours (0.1) and Quantity (Number of units) to the Labour section of the claim. WIS will calculate the value dependant on the warranty labour rate entered in the labour rate field of WIS.

  The reason for this is Handling Allowance can be claimed up to 1.0 hour (as per the Service Procedure Manual) and the SAP system does a calculation by multiplying the time (in hours) by the number of units rather than entering an hourly figure only.

  The screen shot below shows an example if the time taken was 0.7 hours.

	ID	POSITION CODE	WORK CODE	DESCRIPTION	HOURS	QTY	VALUE
	LA	001020	HA		0.1	7	$49.00
▶	LB						
	LC						
	LD						
	LE						

- **Approved CPS Claims**
  If Dealers are unable to view their approved CPS claims by claim number in the Dealer Portal, then Dealers should use the Vehicle Search function to view the claims. There is a defect in place to rectify this issue and once the issue has been resolved, MMAL will communicate it to the Dealer network.

  To view CPS claims using the Vehicle Search function, first log on to the Dealer Portal, then select the My Work tab, the Service tab, then click on the Vehicle Search drop down arrow. Click on Vehicle Search and type the VIN in to the *Vehicle ID No. (VIN) - UPPERCASE ONLY field and click the Start button. (Refer to the screen shot below).

Click on the Internal Vehicle Number to reveal vehicle information. (Refer to screen shot below).

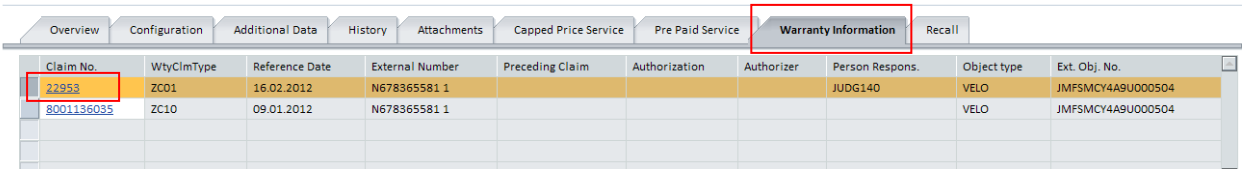

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367

e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au

Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

Then click on the Warranty Information tab to show all claims for that particular vehicle. Select the applicable claim that you wish to view by clicking on the claim number and all claim information will be shown.

- **Dealer Payments for Warranty**
  Dealers will be paid for their approved claims twice a month. MMAL's Finance department will make payment direct to Dealer's nominated bank account for approved claims on the 3rd work day and the 13th work day of each month. Any additional Dealer payments will be communicated on a case by case situation.

  The day after a Dealer payment has been made, the Dealer RCTI will be available for reconciliation of approved claims. Refer to page 4 above of this document for instructions on how to obtain the RCTI.

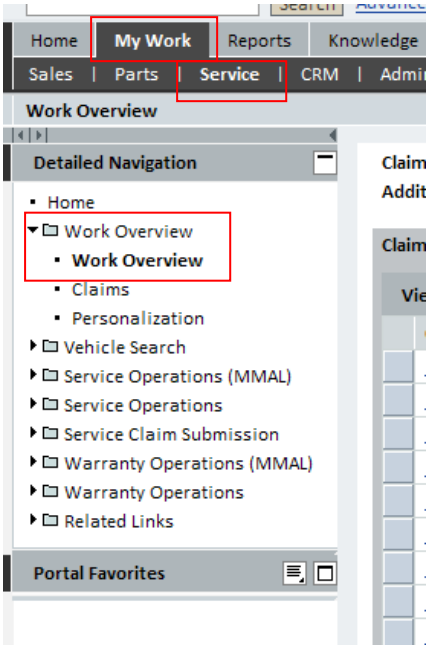

- **Shipment Date Exceeded**
  The error message Shipment Date Exceeded is a known issue and is currently under investigation by MMAL.

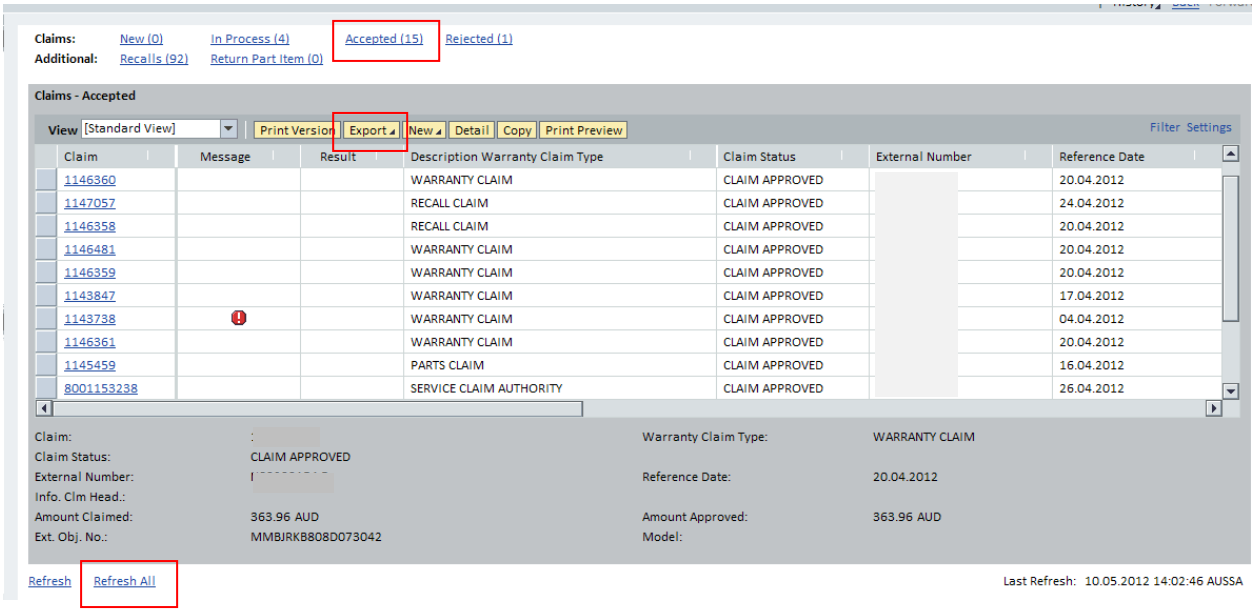

- **When No SAP Claim Number Created**
  If Dealers have an enquiry about a claim that has not been created in SAP (only a SAP Log Number), please include the VIN of the vehicle with the enquiry. This will assist MMAL Warranty staff when dealing with the enquiry.

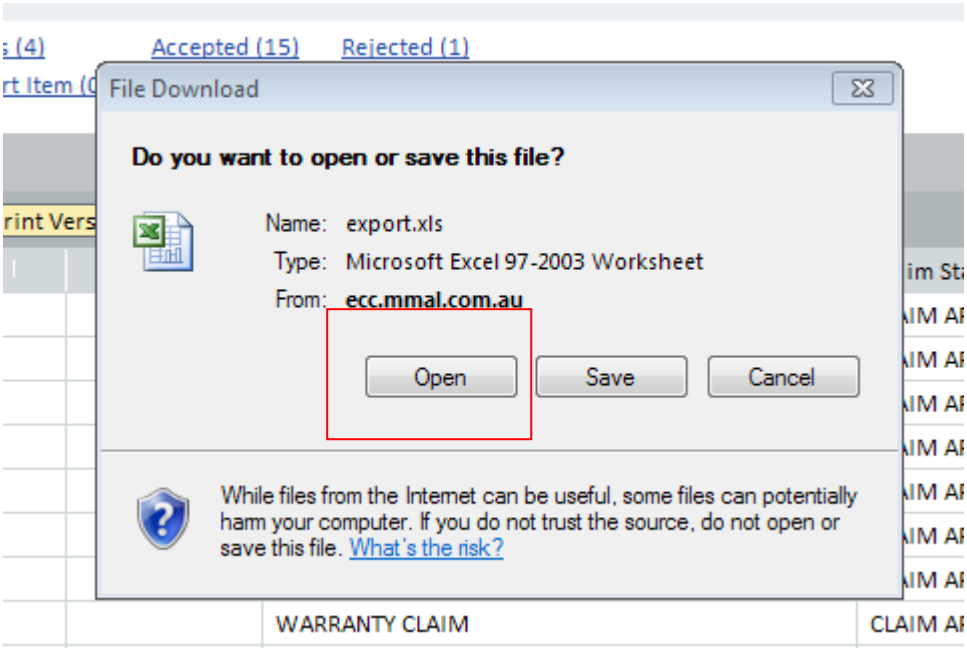

- **How to Download Approved Claims from the Portal**
  Dealers are able to download their approved claims (or other claims in New, In Process or Rejected status). This may be useful as a reconciliation tool.

  To do this process, log on to the Dealer Portal, Click on the My Work tab and then the Service tab. In the Detailed Navigation field, click on the Work Overview drop down and then click on Work Overview. Click on Refresh All to refresh the claims. Once refreshed, click on Accepted to show the approved claims. Then click on the export button to drop down the Export to Microsoft excel button. Click on this button and a Microsoft Excel

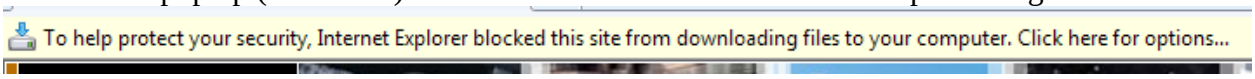

window will pop up asking to Open the file in excel. Click on the Open button and the data will be transferred to Excel. Please refer to the screen shots below showing the buttons that must be selected to complete this process.

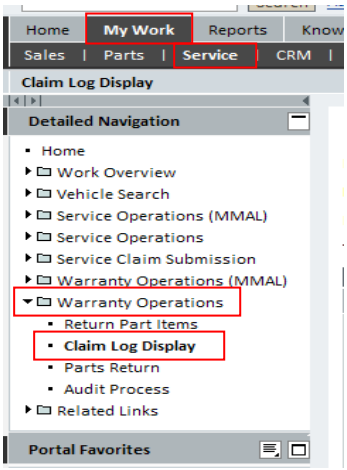

Note: If this process does not work, it may be a settings issue on the PC. You may need to click on the pop up (see below) to allow the download and then do the process again.

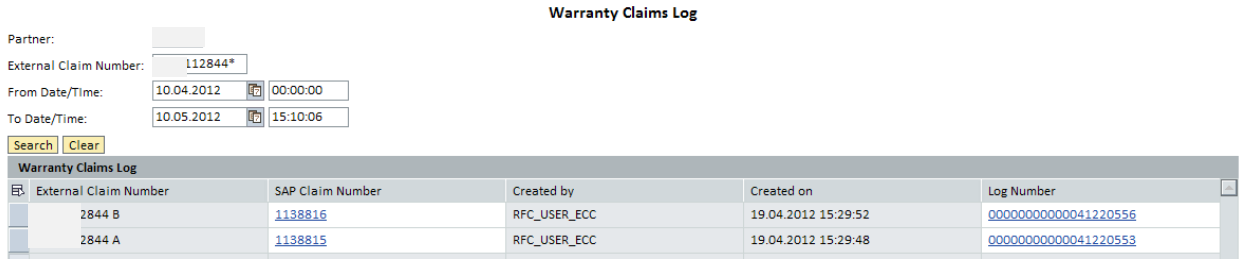

- **Claim Log Display**

  The following steps will instruct dealers on how to use the Claim Log Display. These steps should be used in conjunction with the SAP training material provided.

  To do this process, log on to the Dealer Portal, Click on the My Work tab and then the Service tab. In the Detailed Navigation field, click on the Warranty Operations drop down arrow and then click on Claim Log Display. Refer to the screen shot below.

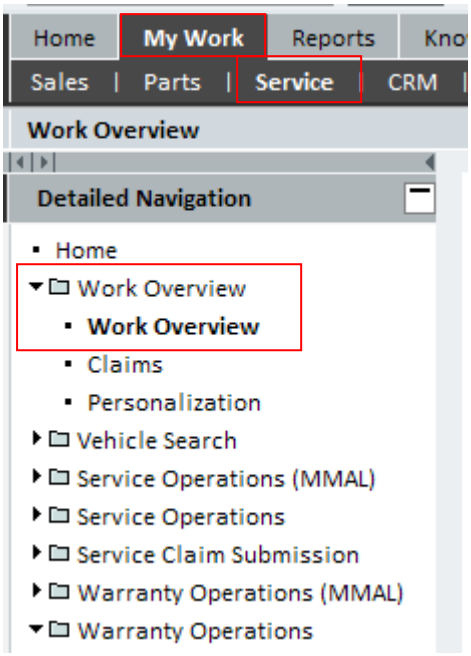

Dealers are then able to search for individual claims using the External Claim Number or search for multiple claims using the From Date/Time field. Click on the Search button and the results of the search will be displayed. Please note that the format to search for the External Claim Number is Dealer Code and Claim Number with a “wild Card” at the end of the string and no spaces.
eg N99912345*

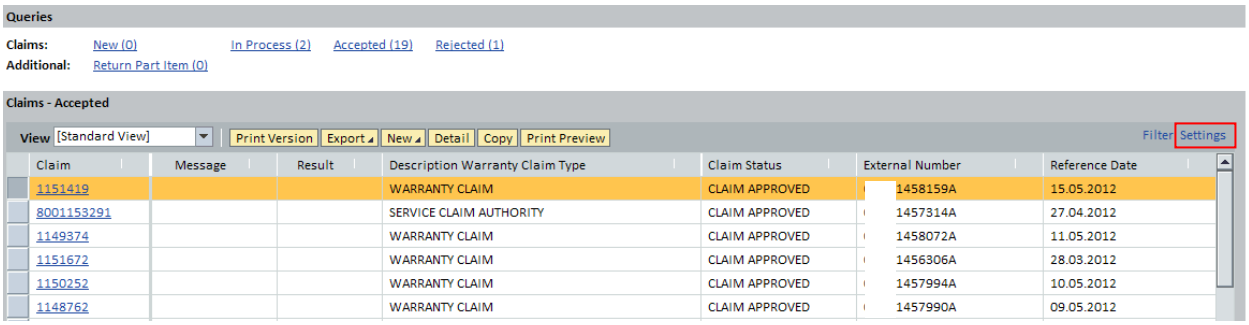

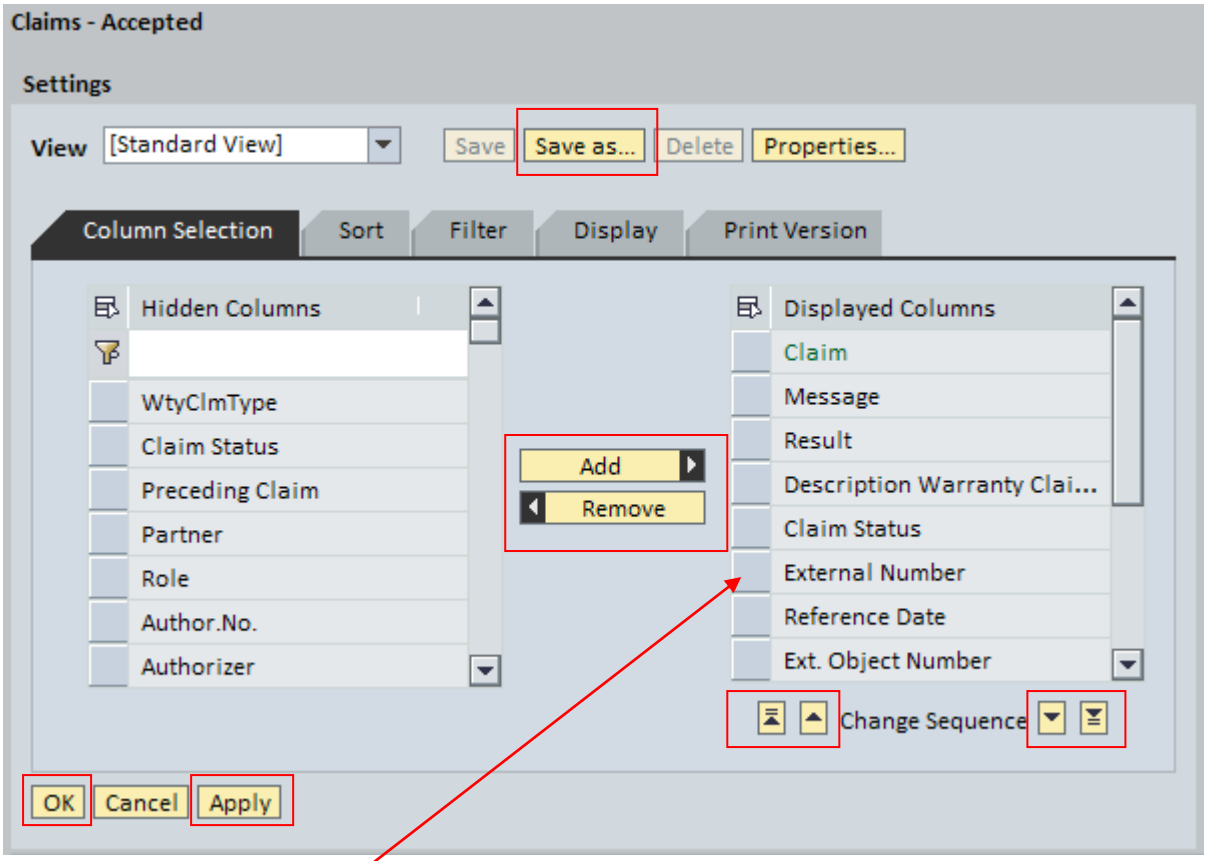

- **Customising Settings in Work Overview**
  Dealers are able to customise their portal settings in the Work Overview. To access the Work Overview screen, Click on the My Work tab, then the Service tab, then click on the Work Overview drop down arrow and then click Work Overview. See the screen shot below.

Click on the Refresh All link to refresh the claims. Click on one of the claim status links (in this example we have clicked on the Accepted claim status link). This will show the Accepted claims. In this screen a customisation can be created to show only the fields that you wish to see for a particular job. For example, you may wish to create a customisation that can be used to reconcile your accepted claims against the RCTI. Follow the following steps to create a customisation.

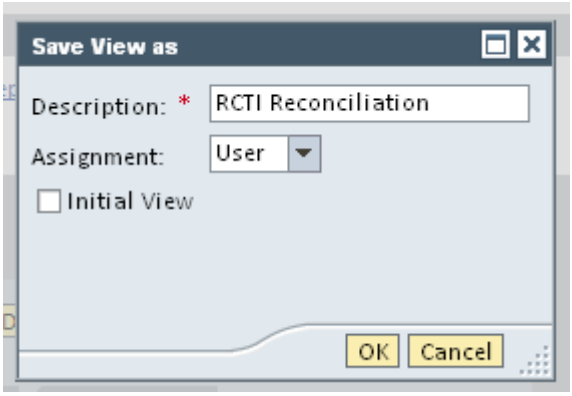

Click on the Settings link (on the right hand side of the page in screen shot above) which will allow you to add and remove columns as you require. See screen shot below.

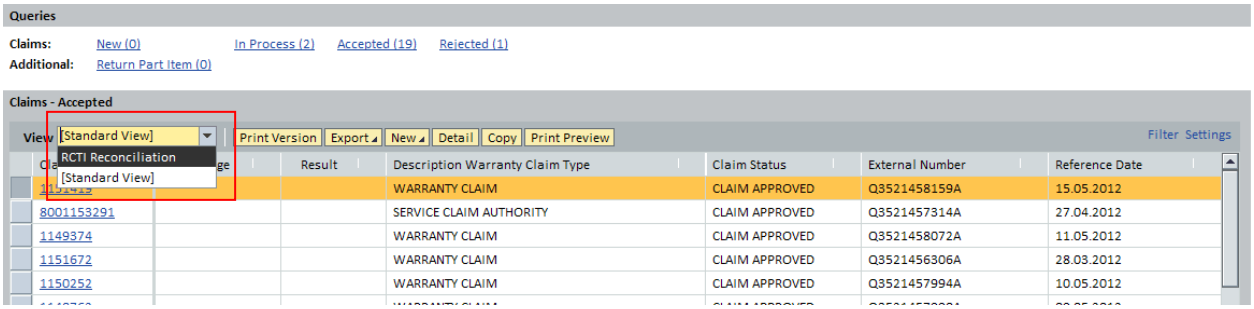

Click in a box to the side of a column heading to select to add or remove that column from the customisation. Note, multiple selections can be made at the same time by holding the Ctrl button on your keyboard and clicking the applicable column heading box. Similarly, holding the Shift key on your keyboard and clicking two boxes will select all column headings in between the top and bottom box selected. Once the line (or lines) is selected, click on the Add or Remove button to add or remove the selected line (or lines). Note, the order of the columns can also be changed by clicking in the box of the heading to be moved and then click on the up or down arrows to move the heading one position at a time. To move the heading to the beginning or the end, click the up or down arrows with the 2 bars on them. Before saving the customisation, click on the Apply button and this will give you a preview of what the layout will look like.

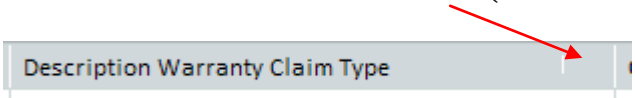

Once happy with the selection of column headings, click on the Save as button (see screen shot above). This will result in a pop up box to enter a description of the customisation. Type a name in to the Description field (this is mandatory) and then click the OK button. If you wish for the customisation to be the default view, then click in the Initial View box and then click the OK button.

After saving the customisation, click on the OK button (see screen shot above). Once the customisation has been saved, the customisation view can be selected at any time by clicking on the drop down arrow of the View field and select the applicable customisation. See screen shot below (in this example, Standard View is the default and RCTI Reconciliation is to be selected).

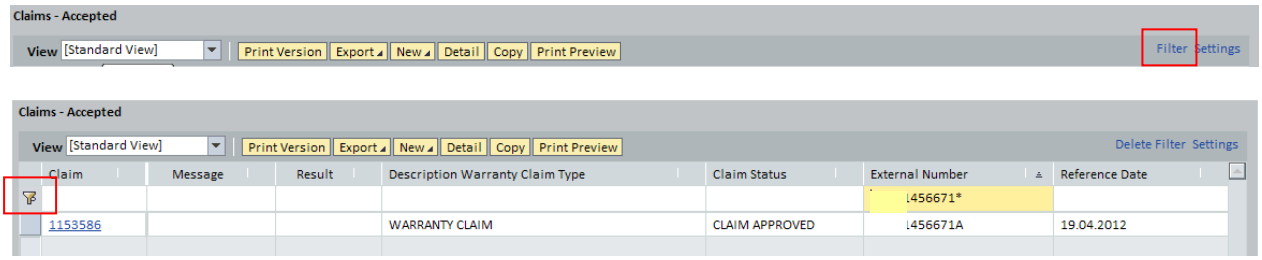

It is possible to sort the claims by claim type which may assist with reconciliation. To do this, click in the field of the heading named Description Warranty Claim Type between the white bar and then end of the column (see screen shot below).

This will sort all of the claims under each of the different claim types (see screen shot below). Note – It is possible to use this function on all of the column headings depending on what you would like to sort by.

Description Warranty Claim Type	Claim Status
RECALL CLAIM	CLAIM APPROVED
	CLAIM APPROVED
	CLAIM APPROVED
	CLAIM APPROVED
SERVICE CLAIM AUTHORITY	CLAIM APPROVED
WARRANTY CLAIM	CLAIM APPROVED
	CLAIM APPROVED
	CLAIM APPROVED

It is also possible to use a filter to locate specific claims. Click on the Filter link to the right hand side of the page (next to Settings. See screen shot below). This will insert a line between the column headings and the claims. In the new line under the applicable heading, type in the data you wish to filter by. For example, you can type an external number in the External Number field and put an '*' at the end of the claim number and either hit the Enter button on the keyboard or click on the Filter button to show the required claim.

- **1500km Transient Services**
  If a 1500km Transient service is claimed for the wrong amount and paid, please contact MMAL Warranty Administration. The claim will require cancellation and then the claim can be resubmitted with the correct claim amount.

- **Late Submission CPS Claims**
  If Dealers require an SCA for a late submission on a CPS claim, they should refer this to their Area Service Manager.

- **CPS Claim Creation in WIS**
  MMAL Warranty has noticed that some dealers are still manually keying in all CPS claim details in WIS when creating a CPS claim. Please refer to Warranty Information Bulletin WIB-2010-13 and click on the WIS User Guide Final document for instructions on how to create a CPS claim in WIS. In this document there is a heading called Capped Price Service Claim Procedure. Follow these instructions to submit a CPS claim.

- **Recall Campaign Submissions**
  It is advisable when Dealers have a repair order with multiple jobs and one or more of those jobs are for a recall campaign, to submit the recall campaign claims prior to the non-recall campaign claims. By doing this it should prevent the error of "recall campaign outstanding" on the non-recall claims.

- **Diamond Advantage (DAV) On Sold Vehicles**
  In the transition from the previous system to the new SAP system, some of the Diamond Advantage on Sold Vehicles has not been transferred correctly. There are two issues.
  1. The calculation of the new warranty end date.
  2. Some of the data for these vehicles is missing

  There have been defects raised for both of these issues. An email will be sent out shortly with a file attached that has the vehicle VIN, new retail date and new odometer reading for each of these vehicles. In the meantime, contact MMAL Warranty Administration if there are any queries with these vehicles.

- **Dealer Portal Settings**
  It has been brought to our attention that some warranty operators may be unable to view all warranty claim fields in the Portal.

  If any operators are assigned SAP warranty access and are unable to view all warranty claim fields, it may be that the settings have been changed by the operator and require resetting to the original set up.

  This is done by simply placing the cursor in to any area of the page where there is not an assigned field, and right click. This will bring up a pop up box. Hover over 'User Settings', and then click on 'Invisible Elements' which brings up another pop up box. Click on 'Restore Grouping of UI Elements' and the page will be restored to full view.

Below are screen shots of what the actions look like to restore full view of the claim.

The above screen shot is of a partial view only of the Claim Header screen. By following the steps above, the screen view is returned to a full view.

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367
e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au
Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

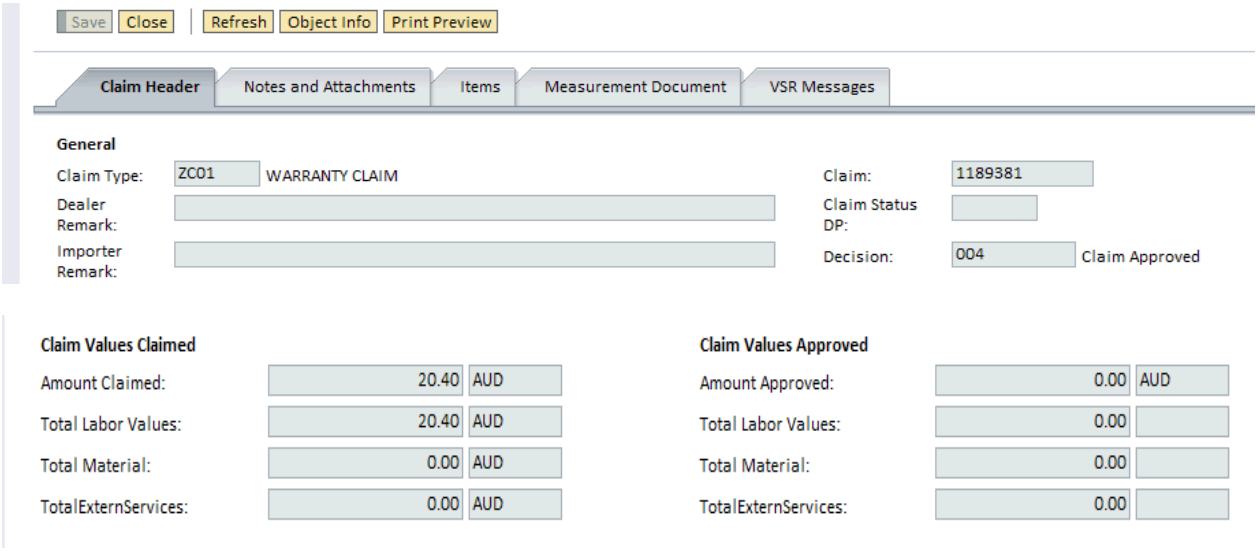

Click here to restore full view.

- **Claims showing Approved but not paid**

  Please be aware that some claims may show a Decision of approved, but in fact the claim is not actually approved and therefore will not appear as paid on the Dealer RCTI.

  If Dealers have any claims where this is the case they should contact the MMAL Warranty department either by phone or email and request manual processing of these claims. If Dealers have any claims that they believe have been approved but after checking their RCTI's find that the claim is not paid, they should contact the MMAL Warranty department for confirmation. MMAL Warranty will then advise the status of the claim. RCTI's dated April 2012 onwards only contain claims that have been approved and therefore paid.

  To identify claims that fall in to this scenario the claim will have a Decision of 004 - Claim Approved, but the Claim Status DP is blank (as shown in the screen shot below). In addition the Claim Values Claimed fields will have an amount, but the Claim Values Approved will show 0.00 (as shown in the screen shot below).

In contrast to an unpaid claim, an approved claim will have both the Claim Status DP field populated with 0004 - Claim Approved and the Decision field populated with 004 - Claim Approved. An approved claim will also show the Claim Values Claimed fields with an amount and the Claim Values Approved fields will be populated with the amounts to be paid for the claim (see the two screen shots below).

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367

e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au

Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

- **Work Overview Date Settings**
  In an effort to improve the system performance of the SAP warranty system, the date search function in the Work Overview has been limited.

  The date search function is currently set to 31st May 2012, which means in the Work Overview function, claims with a creation date earlier than 31st May 2012 cannot be viewed. This does not mean that claims with a creation date prior to 31st May 2012 can't be viewed through other functionality such as Vehicle Search, Claim Log Display or a claim search if the claim number is known. It is only through the Work Overview function that the claims won't be able to be seen. In the personalisation settings of Work Overview, if Dealers format their date settings to a range greater than the number of days set by MMAL, the search results will only return claims with a creation date back to 31st May 2012.

  Each month at the beginning of the month, the date search function will be brought forward to the next month. That is, at the beginning of September 2012 the date search function will be reset from May 31st to June 30th 2012 and so on each month thereafter.

- **Approved Recall and Service Campaigns not seen by Dealers**
  Please be advised that due to a systems issue with SAP, some recall and service campaign claims once approved, are unable to be seen by dealers.

  If a recall or service campaign is approved and a dealer tries to click on the claim number to view the claim, an error message may appear saying "warranty claim not found" or the claim details may be blank.

  If dealers experience this issue with recall and service campaign claims and require confirmation that the claim has been approved, please check the dealer RCTI as confirmation of approval. If the claim has only recently been approved and an RCTI has not yet been produced, either wait for the next RCTI and confirm approval or contact the MMAL Warranty department and they can confirm if the claim is approved or not and when it was approved.

  MMAL are aware of this issue and the SAP team are working on resolving the issue.

To contact Warranty Payments Administration:
Warranty Telephone: (08) 8275 2367
e-mail: warrantyadmin@mmal.com.au
