October WIS disk

Please be advised that MMAL have discovered an error with the October WIS disk (CD Release 10/2012, version 2.0.22). It appears that the SAP part pricing file has an issue which has resulted in part pricing discrepancies between WIS and SAP.

The part pricing issue only affects claims with a repair date of 14th November or later. Therefore MMAL Warranty request that Dealers do not submit warranty claims with a repair date of 14th November or later until further notice. Claims with a repair date of 13th November or earlier should not be affected and we strongly request that Dealers continue to submit these claims. MMAL Warranty will advise when claims with a repair date of 14th November or later can be submitted.

The October WIS disk also appears to have an issue with some CPS claims and this is currently under investigation with MMAL and Infomedia. When more information is known MMAL will advise.

In the interim, MMAL advise Dealers to reinstall the September WIS disk. The September WIS disk can be identified by the CD Release date of 09/2012 and version 2.0.21.
