October WIS disk (Update)

Further to the Warranty Bulletin WIB-2012-16, MMAL have been advised that the errors in the initial release of the October WIS disk have been corrected and Infomedia will be distributing the revised disk as at the date of this bulletin. Dealers should begin to receive the replacement disk from Friday 30th November.

Whilst the revised WIS disk has been corrected, due to an impending part price increase and the timing of the subsequent WIS disk release, Dealers may encounter further part pricing issues early next month. To reduce the impact of part pricing errors on Dealer claims, MMAL Warranty requests Dealers follow the following instructions:

All warranty claims with a repair date up to and including 13th November 2012 should be submitted using the September WIS disk (CD Release date 09/2012; version 2.0.21).

Then load the revised WIS disk which is named November and is identified by the CD Release date 11/2012; version 2.0.23. All warranty claims with a repair date between the 14th November 2012 and 30th November 2012 inclusive can be submitted using this new November disk.

Claims submitted with a repair date of 1st December 2012 or greater should use the December WIS disk that is yet to be released but will be released as early as possible in December. There is a part price increase effective 1/12/12 which means that if Dealers use the November WIS disk for claim submissions where the repair date is 1st December or greater, there may be a part pricing error.

If after following the instructions above, Dealers experience any part pricing errors with their claim submission, the error should be referred to MMAL Warranty. Please send an email to Warranty Administration with the part number of the affected part, the repair date, the dealer code and the CD release date of the version of WIS used.

Capped Price Service claims should be submitted using the November WIS disk (CD Release date 11/2012; version 2.0.23). The errors experienced in the initial October WIS disk have been resolved and all CPS claims should be submitted using the revised November dated disk. Dealers should also note that for CPS claims the November dated disk may show an incorrect claimed date for a previous CPS claim (see screen shot below highlighted in blue). This will not affect the claim

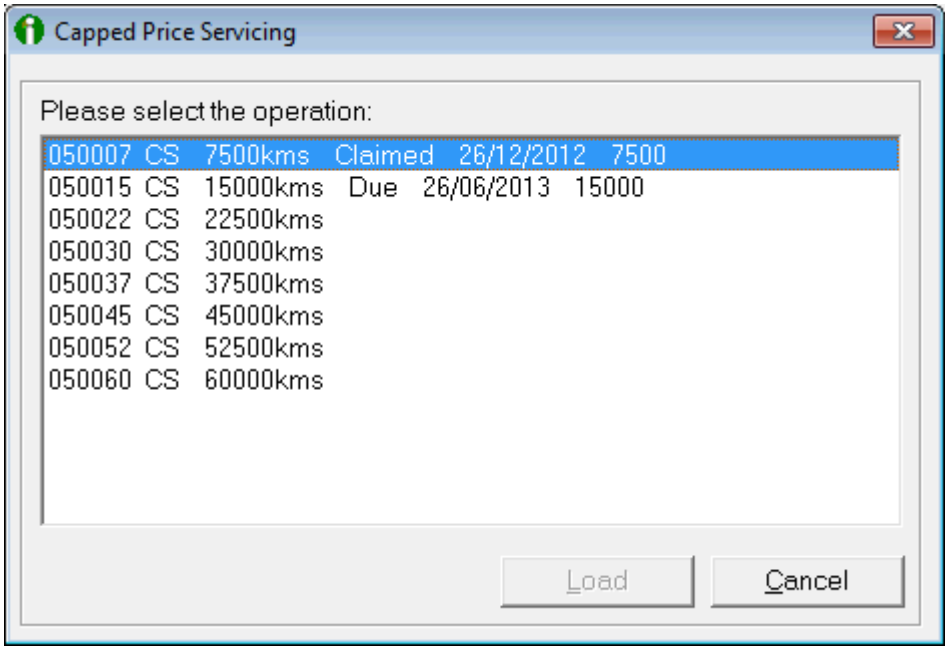
submission and Dealers should always check SAP in the Dealer Portal for previous CPS claims, service intervals and the next due service date.



Due to the issues caused by the October WIS disk (CD Release 10/2012, version 2.0.22) MMAL Warranty have decided to extend the claim submission period for claims with a repair date of 14th November to 30th November inclusive to 30 days.
