WARRANTY INFORMATION BULLETIN

WIB 2012-21 7/12/2012

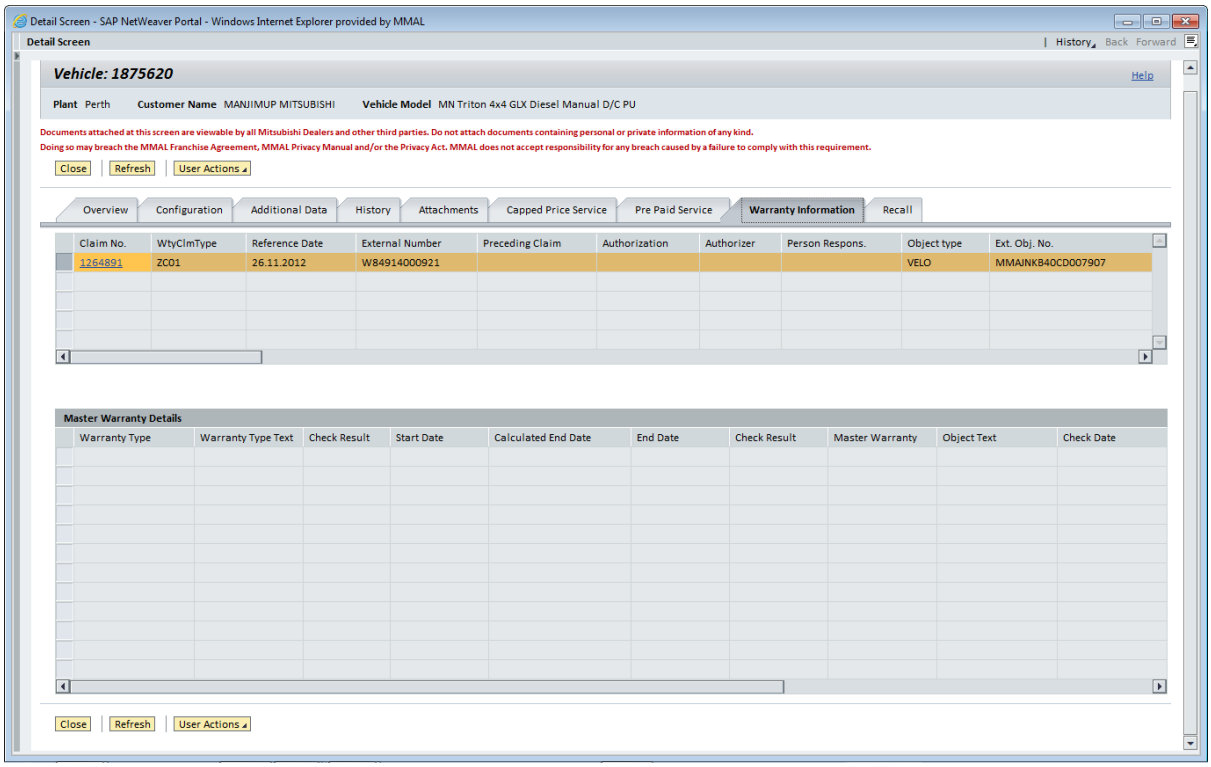

This Bulletin forms part of the Warranty Procedure Manual.

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

No Master Warranty?

There is a problem in our new systems where master warranties are not being assigned to some vehicles. The problem appears to only occur on vehicles sold since the new system Go-Live and is more prevalent on vehicles RDA'd in the first few months (April, May, and June 2012). MMAL have put in some counter measures to reduce the incidence of these issues but, at this stage, it cannot be guaranteed that the problem is fixed.

Regardless of any fixes put in place there remain vehicles out there that do not have a Master Warranty applied. Without the Master Warranty a warranty claim cannot be paid.
A vehicle with no Master Warranty will look like the picture below in the "Master Warranty Details" section of the "Warranty Information" tab:

What do you do?

To contact Warranty Payments Administration:

Warranty Telephone: (08) 8275 2367

e-mail: warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au

Address: 1284 South Road Clovelly Park SA 5042
PO Box 8 Melrose Park SA 5039

First and foremost you need to let MMAL warranty department know of the issue so that we can apply the correct Master Warranties to the vehicle.

Second you can check the customers Service and Warranty book which should have the correct details.

Third, if there are circumstances where you cannot wait for a reply from MMAL warranty (eg when a customer is waiting or the Service and Warranty book is not available) then use of some common sense is acceptable. Use the Warranty start date or RDA date on the "Additional Data" tab as a guide. This issue should only occur on recently sold vehicles so all should be in warranty. If the warranty has been altered or assigned for Head Office consideration by MMAL this will not appear as blank Master Warranties.

You should not, however, lodge a Warranty Claim for a vehicle without a Master Warranty applied. Most of the cases that have been referred to MMAL have been after a Warranty Claim has been stopped (usually with a Claim Status of "ZWTY"). This indicates that the Master Warranty status has not been checked either before work has commenced or before a Warranty Claim is lodged which is against procedure. Warranty status should always be checked prior to performing warranty work.

If work is performed on a vehicle that had no master warranty assigned in the system this should be noted on the RO and a photocopy of the relevant page(s) from the Service and Warranty book attached to cover you in case of audit.
