MITSUBISHI MOTORS

WARRANTY INFORMATION BULLETIN

WIB 2012-24 13/12/2012

This Bulletin forms part of the Warranty Procedure Manual.

ATT: SERVICE MANAGER/WARRANTY ADMINISTRATORS

SCAVARY: Claimed Item amount varies from Authority amount

This bulletin is to remind dealers that Warranty Claims that are too far below an approved SCA amount will fail processing as well as claims that are in excess of the approved SCA amount.

A difference between the old and new warranty systems is that the new system will not pay warranty claims requiring an SCA that fall too far below the amounts authorised on the SCA. This has the advantage of allowing the claim to be re checked before approval in case something has been missed on the claim that was authorised on the SCA. And, as forgetting to put an item onto a claim is not a valid basis for appealing a claim judgement, this will help dealers get paid correctly. The disadvantage is that the process is slower.

It should also be noted that the SCA needs to match on Parts and Labour (at an item and item type level) individually as well. A warranty claim that has a total value exactly the same as the SCA but is different between Parts and Labour will fail.

If your warranty claim comes out below the SCA and is being held up you should:

1. Check the claim to ensure that all items have been included
2. If claim is correct and the SCA was over estimated go back to the original SCA and
    a. Make the necessary changes to the dollar values
    b. Make the notations explaining why the changes were made
    c. Re-submit in “Appeal Decision” status
3. Check that approval of the SCA has been made
4. Once SCA has been approved go to the warranty claim and set to reprocess status
5. Check claim after 4 hours
6. If claim still fails contact Warranty department
