December WIS disk

This bulletin is to advise dealers on the status of the next WIS disk (due in December) and how best to progress their claims.

Further to WIB 2012-17 where it was suggested that dealers hold off from submitting claims with December repair dates until the new WIS disk was loaded. This was because the current disk will not contain the part price changes that took place on December 1st. Unfortunately the disk will not be available until at least next week and maybe not be available until December 20th.

If dealers have been holding back on submitting claims they should begin submitting these claims.

To facilitate this, **claims with a repair date between December 1st and December 14th that are submitted before December 31st will not require a late submission SCA.**

There will be part pricing issues with some parts which will require help from MMAL warranty.

MMAL warranty department apologise for this inconvenience and thank you for your patience.
