SCAVARY: Claimed Item amount varies from Authority amount

This WIB adds more detail to WIB-2012-24 in regards to warranty claim values differing from SCA values.

Further to WIB-2012-24 please find below the circumstances where claims will not process due to claim amounts being different to the SCA.

The above error will appear when:

- The value of the claim exceeds the total value of the SCA
- The value of any line item on the warranty claim exceeds the value of that line item on the SCA, even if the total SCA is exactly the same as the claim.

What to do:

- Check the warranty claim, has it been filled out correctly? If not, correct the claim and re-submit
- If the claim is correct then the SCA should be appealed, and the correct amounts input as per WIB-2012-24

The above error will appear when:

- The value of the claim is lower than the total value of the SCA by 10% or more
- The value of any line item on the warranty claim is lower than the value of that line item on the SCA by 10% or more
