Warranty Claim Resubmission

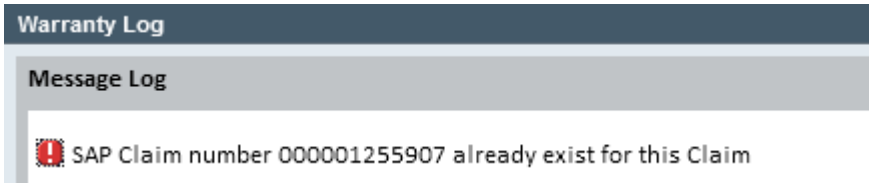

This Warranty Bulletin is to remind Dealers how to resubmit their claims depending on the status of their claim.

There are 2 ways to resubmit claims but the resubmission process is dependent upon what status the claim is at.

1. If no SAP claim number has been created, then Dealers MUST resubmit the claim, after addressing the errors advised in the log display, using WIS. The screen shot below shows the log display where some claims have an SAP claim number created and others where no SAP claim number has been created. If no SAP claim number is created, click on the Log Number to view the error message and then correct the claim in WIS and resubmit the claim through WIS.

2. If a SAP claim number has been created, then any corrections that need to be made to that claim MUST be made in SAP. DO NOT make the changes in WIS and resubmit the claim as this will only produce an error message in the log display as shown below.

PO Box 8 Melrose Park SA 5039

Dealers must make the corrections in SAP by selecting the applicable claim number (either through the log display, claims or work overview sections) and then make the necessary corrections, save the claim and select the claim for reprocessing (refer WIB-2012-22 on how to reprocess a claim).

Below is an example screen shot of a claim that is in Process for Dealer Correction. The claim should be corrected here in SAP in the applicable tab(s) and the status of the claim changed to reprocess the claim once all corrections have been made.
