Warranty Information Systems (WIS) Authority Codes

MMAL have loaded a Warranty Information Systems (WIS) authority code document to the portal at the following location:

Knowledge => Service (Data) => Warranty. The document is called “WIS Authority Codes”

This document will be updated each Month as a new WIS disk is made available and the authority code is known.

If Dealer’s require the WIS authority code to submit their claims, they should check this document for the applicable authority code relevant to the version of WIS that they are using.
