MMAL Warranty Contact Details

This Warranty Bulletin is to remind dealers of the Warranty department contact details.

All contact to MMAL's Warranty department should either be by email (the preferred method) or by phone to the Warranty telephone number. No other phone numbers or email addresses should be used.

Some Dealers are ringing MMAL's Help Desk requesting assistance with their warranty claim queries. **The Help Desk is for systems related issues only.** The operators on the Help Desk will not be able to assist with warranty queries.

Help Desk operators will either take down the details of the dealer query to pass it on to MMAL's Warranty department, but this process passes through several other departments before being received by Warranty. Therefore the time to respond to the dealer query is much longer than if the query had been sent through the correct contact channels. If the Help Desk can determine that the issue is definitely a warranty issue the Help Desk operators will instruct Dealers to contact the Warranty department direct using either of the options below.

The contact details for the MMAL Warranty department are as follows and are also shown at the bottom of this and all other warranty bulletins:

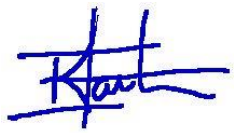

Email – warrantyadmin@mmal.com.au
mmal_warranty_admin@mmal.com.au

Phone – (08) 8275 2367
1300 1300 99
Select option 2 (for Service), then select option 4 (for Warranty)

If Dealers are experiencing technical issues with their system that they are unable to resolve and have checked with their own IT department, their own dealer portal administrator and have checked all applicable communication published by MMAL, then they should contact MMAL's Help Desk. The contact details for MMAL's Help Desk are as follows:

Phone – 1300 1300 99
Select option 4 (for General Business), then select option 1 (for System Support)

If Dealers are not sure whether their issue is systems related or warranty related, they should contact MMAL Warranty Administration first, rather than contacting MMAL's Help Desk. MMAL Warranty staff can then advise if it is necessary to contact the Help Desk or perhaps an alternative department that is capable of resolving the issue.
