Warranty Repair Policy – Sublet Repairs

Service and Warranty staff are reminded of Section 19.3 of the Service Procedure Manual which refers to Sublet Repairs:

19.3. SUBLET REPAIRS

It is in the interests of the Franchisee to retain all repair work and only sublet to a specialist where absolutely necessary. However, it is recognised that the use of specialist sublet repairers may be required to complete certain repairs effectively. Where sublet repairs are necessary, the following must be adhered to:

- The Franchisee should not allow sublet repair costs to exceed those that would have been incurred had the Franchisee conducted the repair in their own workshops.
- Claims for sublet repairs may not exceed the repairer's net invoice value.
- Genuine MMAL parts must be used and claimed using the relevant part number in the parts section of the Warranty Service Claim. Parts must not appear on the sublet invoice except when the use of non-genuine parts has been approved.
- Claims must be supported by copies of purchase orders, repairers invoices and, where applicable, photographs, all of which must be attached to the Repair Order.
- The Franchisee is responsible for quality checking the work performed. Such checking should be recorded on the repair order and initialled by the checking officer.

In essence this means that MMAL will only pay the lesser of the invoiced amount from the sublet repairer or the LOTS time published for the job multiplied by the dealer's warranty labour rate.

If there is no LOTS time for the work then the sublet will be assessed for reasonableness by MMAL PSM's which may result in a lesser amount being approved than was paid out by the dealer. Reasonableness can be assessed via multiple quotes for the work or other action as deemed necessary by the MMAL PSM (eg inspection).
