Kit Parts used for Warranty Service

This bulletin is to advise dealer's the claiming procedure for kit parts used for warranty service.

This is only for the kit part numbers in the attached spreadsheet.

MMAL is unable to submit claims for some kit part numbers to MMC. As a result, effective from the date of this bulletin, dealers must submit individual part numbers and part quantities contained in the kit on the warranty service claim and not use the kit part number.

Dealers can still order & use kit parts for warranty service.

The attached spreadsheet contains the kit part number and the individual part numbers with quantities contained in each kit. Part numbers can be copied and pasted from the spreadsheet directly in to the claim submission form.

The continued use of the kit numbers will cause an error in your claim judgment or will be paid for zero value. The continued use of these kit numbers will not be an excuse for claim reversal.
