MQ Triton Labour Operation Times

In conjunction with Release 2 of the Operation Code manual, MQ Triton labour operation times are now active in the MMAL warranty system.

Dealers must now use the published labour operation codes when preparing warranty claims for MQ Triton.

Effective from Wednesday 11th November 2015, the use of work code "99" (see WIB-2015-17 for the correct use of work code "99") where a labour operation code exists may result in a claim payment being delayed or reversed at a later date.

The claim must meet audit requirements and could be reversed at audit if this requirement is not followed.
