Attention: Service Managers, Service & Warranty Personnel

Subject: Aged Service Events

Dear Ladies and Gentlemen,

MMAL Warranty Administration wish to advise that on the weekend beginning Friday evening 11th June, MMAL's IS Department will be uploading aged Service Event claims (Claim Type YC20) dating back to October 2017.

The claims will be created automatically and the claim status will be changed to Completed. **No Dealer action is required**.

However, it will affect the portal display in the "Your Warranty Claims Worklist". By default, the system will display all claims submitted regardless of the claim type or status.

To avoid seeing these aged Service Event claims, Dealers can manage their display by creating and saving a new default view of the "Your Warranty Claims Worklist".

Below are some instructions and screen shots showing how to set up a new default view. The new default view must be set up prior to the upload of these aged claims otherwise the claims will appear in the worklist.

Yours sincerely,

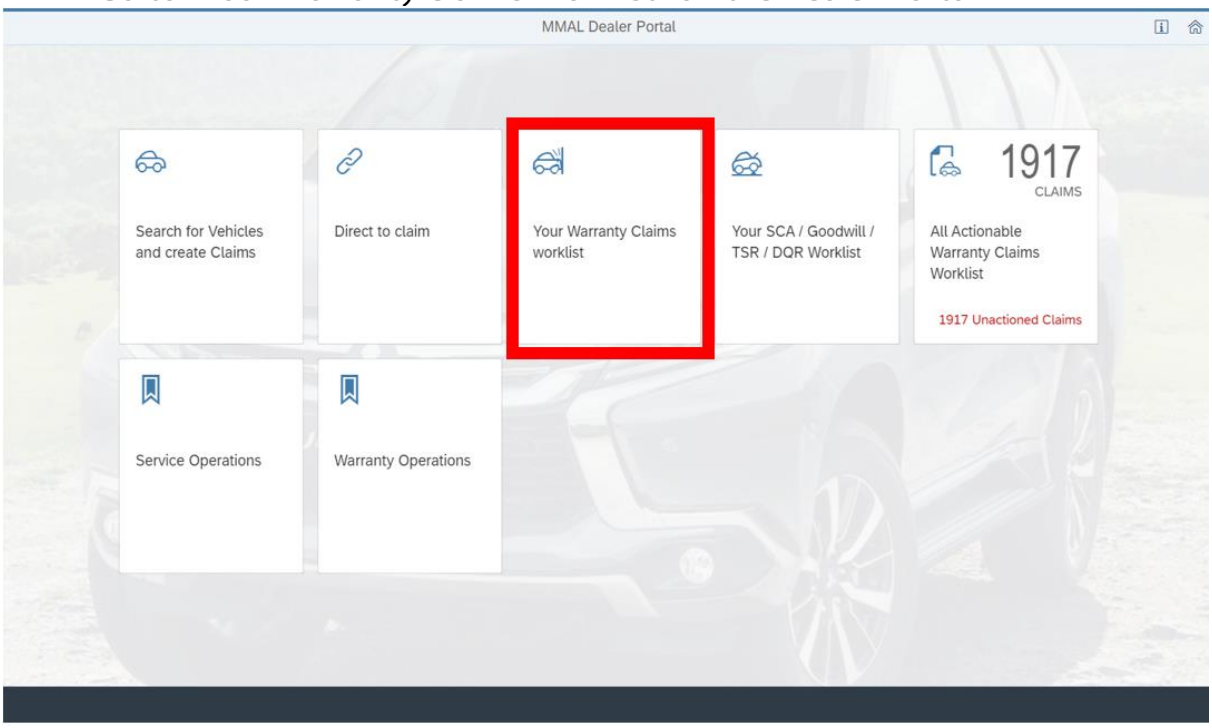

Fiona Lamond
Warranty Administration Manager
