Subject: Temporary extension to Warranty submission times/Late submission requirements

Dear Ladies and Gentlemen,

MMAL would like to acknowledge the unprecedented impacts and difficulties being faced by many Dealers across our network as a result of the current environment.

We are aware that many Dealers are experiencing issues relating to staff levels and this is subsequently affecting warranty claim processing.

To assist our Dealers MMAL will temporarily extended the warranty claim submission time frame to 30 days before authorisation for late submission is required.

Hopefully this will assist Dealers by reducing requirements where authorisation is required ONLY for late submission.

Where a claim requires authorisation for any other policy or procedural requirements, then an authorisation request must still be submitted.

While this temporary change is in recognition of the difficulties Dealers are currently facing, this is not approval to deprioritise claim submissions.

Dealers are expected to submit claims as soon as possible after the completion of the repair.

Dealer compliance with normal submission requirements will be monitored and any Dealers identified as exceeding the standard 14 day terms (in significant volume) may be hi-lighted to their region for additional information/support.

CPS claims already have a 30 day submission period however it is imperative that CPS claims are submitted in a timely manner to maintain Diamond Advantage compliance and Roadside Assistance eligibility.

Any Dealers experiencing excessive delays or a significant impact to services should contact their regional office for assistance in the first instance.
