Subject: Labour Operation Times – ZM Outlander and Eclipse Cross PHEV

Dear Ladies and Gentlemen,

MMAL Warranty Administration would like to advise that Labour Operation Times are now loaded for the ZM Outlander, ZM Outlander PHEV and YB Eclipse Cross PHEV models.

The operation codes are available for selection during the SCA and claim creation process, the same as all other models.
Please ensure standard labour operation codes are selected where applicable and avoid using actual time if a standard operation is available.

As yet these models are unable to be viewed in the Operation Code Manual; this is being worked on and will be communicated as soon as the facility is available.
In the meantime, available labour operation records will display upon entry of the relevant position code in the respective claim labour item selection menus.

Failure to adhere to the above requirement may result in delays to claim processing or payment.
.

Yours sincerely,

Fiona Lamond
Warranty Administration Manager
