Overview

Dealers are reminded of the importance of ensuring ALL communication with MMAL Warranty Administration contains ALL required documentation and is verified by dealers for accuracy and completeness BEFORE SUBMISSION to MMAL.

Warranty Administration are currently experiencing a high level of Claims, and Mi-Dealer Assist (MDA) cases requiring Warranty Administration action because of the submission of incomplete or incorrect information.

While we are making every effort to respond within 48 hours of receipt, the increased volume is impacting response times and results in processing delays.

Failure to provide complete and accurate information causes additional work for both Warranty Administration and the dealer and delays finalisation.

Submission Requirements

While we understand it may be necessary to request assistance, MMAL ask that dealers review their operations to ensure that unnecessary work is reduced.

We are seeing an increased occurrence of the following:-

- **Claim submission**
  Incomplete and incorrect claims.
  Review claim for accuracy and completeness BEFORE pressing submit.
  - ✓ Confirm ALL parts and labour used in the repair are ACCURATLEY recorded on the claim, including quantities, miscellaneous item values and sublet costs.
  - ✓ Information entered is correct e.g. confirm odometer readings / repair date.
  - ✓ Ensure Complaint, Cause, Correction information describes the repair.
  - ✓ ALL required documents and relevant supporting information are attached.
  - ✓ If a claim is "Returned for Correction", refer the "Chat" tab, it may contain additional information.
  - ✓ If MMAL request additional information, please action ALL requirements BEFORE resubmission.

Ensure that ALL DATA IS VERIFIED and that you can substantiate the repair being claimed.

There is a disclaimer asking you to confirm this during the submission process.

- **MDA cases**
  - ✓ Before you raise an MDA case, check to see if you can resolve the issue.
    - ✓ Check the "Claim Errors" icon.
    - ✓ Check your internal records, e.g. for Odometer and/or date discrepancies.
    - ✓ Check the "Chat" icon if MMAL have returned the claim.

Refer the WPPM, Appendix A-2 "Error Messages and Meanings" for additional information on error messages and dealer action.

✓ MDA cases with insufficient detail/information.
Please provide sufficient information to allow review of the issue. E.g. If you need a correction to a claim, tell us what, why and the new information. Include information, e.g. RO, clocking's, etc that support your request.

✓ Multiple MDA cases raised for the same claim
If it is necessary to follow up a claim that is the subject of an existing MDA, please UPDATE the existing case. This keeps all communication regarding the issue in one stream.

✓ Follow up of claims in "MMAL Processing" status.
MMAL will action your claim. Please allow several days.
Raising an MDA the next day only delays claim processing as we are answering your query and not reviewing your claim. Ensuring all required information is attached to your claim on submission will assist in preventing further delays.
