Attention

Fixed Operations Managers, Service Managers & Advisors, All Service & Warranty Personnel

Overview

This communication provides advance notice of the upcoming deployment of the new MMAL Dealer Warranty Portal, scheduled for release overnight on Thursday, 4th June 2026.

The updated MMAL Dealer Warranty Portal introduces a range of improvements designed to simplify information access, support more efficient claim management and the completion of daily warranty activities, while retaining all existing functionality.

Improvements focus on simplifying navigation, enhancing visibility of key information, and streamlining access to vehicle and warranty data.

The key features and changes are outlined below.

Key Features

The updated portal features a redesigned cleaner landing page, providing at-a-glance visibility of claim status, clearer consolidation of related subject matter, and prominent highlighting of key information.
The presentation of claim and vehicle information has been enhanced with all relevant details now displayed in a single-page layout, reducing the need to navigate between multiple pages to access information.
In-page navigation has also been introduced, allowing users to select a menu heading and move directly to the relevant section of the page, enabling faster access to key information.
Overall, these improvements are designed to improve visibility, reduce navigation steps, and support more efficient access to service and warranty information.

Key features and changes

Landing Page
Quick Navigation: A new cleaner landing page provides direct access to individual vehicle and claim searches when the Portal opens, enabling quick navigation to specific records.
Service & Warranty Links: All key Service Operations and Warranty resources are now consolidated in one location and accessible directly from the landing page.
Warranty Claims: Two quick reference tables provide at-a-glance information on your most recently updated claims and claims that require your action to continue, helping support efficient claim management.
TSR Training Materials: TSR and **TESS**-related training and reference materials are easily accessible from the landing page.

App Launcher
Access to the tiles that were previously displayed on the Warranty Portal landing page is now via the App Launcer icon located in the upper right corner of the landing page screen.

Selecting the App launcher icon will open the selection panel.

Vehicle Detail Screen

This screen acts as the central reference point for the selected vehicle, providing at-a-glance confirmation of the vehicle's identity and warranty coverage, and displaying all related vehicle information including vehicle configuration, fitted accessories and claim information .

This is the entry point for creation of Warranty Claims and Technical Enquiries.

Header information: This section provides confirmation of the vehicle, which warranty coverages are active, and an "Active" recalls flag, where applicable.
Navigation and Related Information: Across the page, in-page navigation options allow you to move directly to related sections, such as Warranty related information, allowing quick access to supporting information without leaving the vehicle record.

Claim Detail Screen

Header Information: This screen provides an at-a-glance summary of a specific claim, allowing dealers to quickly confirm claim details such as status, and value, before navigating to continue data entry or review detailed claim information to continue processing.
Navigation and Related Information: Across the page, in-page navigation options allow you to move directly to related sections, such as Claim details and narrative information e.g. Repair details (CCC) entry or Chat communication, allowing quick access to all claim information without leaving the claim record.

Reference Information

Refer to the attached "WIB 2026 New MMAL Dealer Warranty Portal changes guide" document for additional information regarding functional changes.
Refer to the relevant sections in the WPPM and SPM (available on the MMAL portal) for information on claim submission requirements

Quick Tip

Ctrl+F will allow you to search any of the above Manuals using a key word.

Abbreviations

SPM - Service Procedure Manual
TESS - Technical Enquiry Support System
TSR – Technical Service Request
WPPM - Warranty Policies & Procedures Manual

Yours sincerely,

Fiona Lamond
Warranty Administration Manager
